TA brief

LAUNCH Design and Technology Spring 1 Week 3 Thursday 21 January 2027 P1 Year A Resilience and Change

I can use real evidence to review my dish, check its cost and choose one improvement.

I do

Point to the source and calculation. Model the first addition only, then return the next step to the pupil.

We do

Ask whether the claim is taste, appearance or not assessed. Give thinking time. A photo never supplies a taste note.

Independent

Read one heading at a time. Scribe the pupil’s exact words, then read them back. Keep adult observation separate. Use a calculator or pence prompts when needed.

Prompt ladder

Point to the place or instruction. Ask a short question. Rephrase. Give a scaffold or choice. Model the first step only, then return the task.

Calm access

Offer a private adult review and a pause with an agreed return cue. No food contact, personal health information or tasting is required.

Keep

The pupil’s own review states the dish and actual source, taste assessed from the recorded Week 2 note or taste not assessed, appearance if evidenced, checked cost per portion, food-group comment and one improvement with a reason. Keep the date, evidence location and actual support. Missing evidence and simulation remain clearly marked.
