OPENING RESILIENCE & CHANGE

Choose fabric for a useful pouch

I can choose fabric and a joining method for a pouch and explain how they suit its job.

Weekly outcome

TEXTILES: choose fabric and technique for a purpose.

Choose today. Keep the actual design for Week 5.

ARRIVAL 5 MINUTES

A pouch with a job

Hold three paper cards, each 60 mm by 80 mm.

Join the sides and bottom. Leave the top open.

Comfortable to handle. No loose sharp parts.

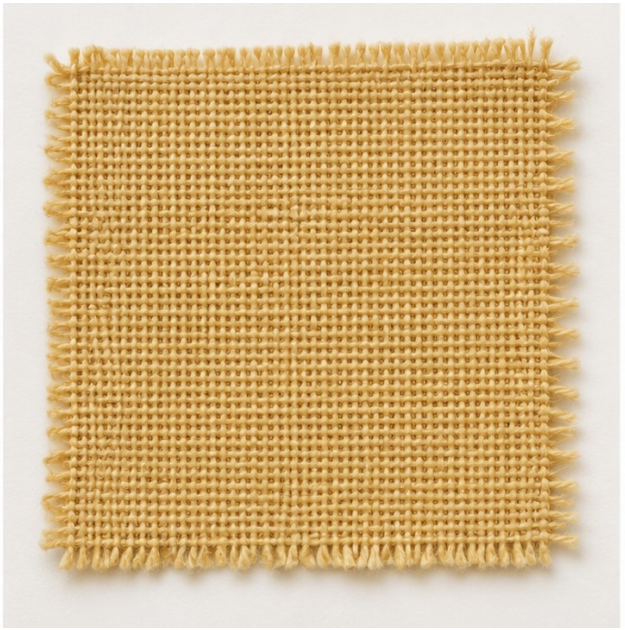

STARTER 3 MINUTES

What can a fabric do

Compare stretch, cut edge and firmness.

Felt

Woven cotton

Stretch knit

Original teaching model. Actual fabrics vary. A picture is not a sample test.

I DO 5 MINUTES

My model design choice

Felt and hand running stitch.

A firm fabric may help hold the cards.

Stitch joins the sides and bottom.

Two pieces 100 mm by 120 mm. Seam lines 10 mm in. Top open.

WITHIN I DO TECHNIQUE CHOICES

A join or a fastening

Method	Job and control
Hand running stitch	Joins layers. Adult-approved needle and supervision.
Fabric adhesive bonding	May join layers. Adult label approval and full cure first.
Button and loop or ties	Closes an opening. Not needed for our open-top design.

A fastening closes an opening. It does not replace joined sides and bottom.

WE DO 7 MINUTES

Compare a second choice

Could woven cotton suit the purpose?

Property: its edge may fray.

Effect: it may need edge finishing.

Decision: choose after an actual test, or name the model information.

WE DO 2 5 MINUTES

Check the job of a fastening

A button closes the top. Does it join both sides and bottom?

A Yes B No C Only if it looks strong

Explain your choice.

INDEPENDENT 8 MINUTES

My own design decision

Choose fabric and a joining method.

Give a property and a reason linked to the cards.

Sketch two 100 mm by 120 mm pieces.

Name 10 mm seam lines on left, right and bottom. Top open.

WITHIN INDEPENDENT ONE ROUTE AT A TIME

Supported Standard or Stretch

Supported: choose from two options and explain one property.

Standard: compare two fabrics and record a full design choice.

Stretch: compare three fabrics and two joins; explain a trade-off.

Name actual sample evidence or model information.

REVIEW 4 MINUTES

Check the choice against the job

Will the design hold the three cards?

Sides and bottom joined. Top open.

Keep one change or question.

Adult checks the design and later tool support separately.

WITHIN REVIEW EVIDENCE AND SAFETY

Keep an honest design record

A photo or model description is not an actual fabric test.

Count and return needles if any were demonstrated.

No adhesive test before adult approval and full cure.

No fabric or tools: choose from the models and keep making pending.

EXIT 3 MINUTES

My reason for the next maker

I choose ___ because ___.

I will join the sides and bottom using ___.

My evidence is ___. My next question is ___.
