Teaching assistant brief

Design and Technology LAUNCH Spring 1 Week 4 Thursday 28 January 2027 P1 Year A

I can choose fabric and a joining method for a pouch and explain how they suit its job.

Before the choice

Read the purpose and show one property row at a time. Offer actual samples only with adult approval, or use the model descriptions. No forced touching. Keep any sharp tools under adult control.

I do and we do

Use property, effect, decision. Point to sides, bottom and open top. Ask one short question, wait, then fade the model. Correct joining and fastening confusion.

Independent stage

Support the chosen route. Let the pupil choose and explain. Read scribed words back. Keep actual sample results separate from model information and future product tests.

Prompt ladder

Point to the place or instruction. Ask a short question. Rephrase. Give a scaffold or choice. Model the first step only, then return the task.

Pause and record

Put tools down and agree a safe return. Record actual help and design location. Count and return any needles demonstrated. No tool practice or making is inferred.

Language and next step

Plan in any language. Accept pointing, speech or signing. Keep the actual design for Week 5 and any adult approval still needed.
