Teaching assistant brief

Design and Technology LAUNCH Spring 1 Week 5 Thursday 4 February 2027 P1 Year A

I can use my checked design to measure, cut and join accurately with safe support.

Before equipment

Confirm the actual design and adult-approved tools. Check the needle count. Offer prepared pieces or pupil-directed adult handling. A pupil never uses sharp tools without the agreed supervision.

I do and we do

Point to ruler zero, then the target value. Model the first action only and wait. Check both layers and the seam guide before a needle pass. Keep fingers clear and thread flat.

Independent stage

Maintain the agreed supervision. Fade prompts only when safe. Ask for an actual measure, not a copied target. If an adhesive route was chosen, follow the checked label and full cure time.

Review and evidence

Count and return needles. Record actual measurements, roles, join stage and any correction. Read the pupil’s words back. Do not claim cutting or sewing that the adult performed.

Access and pause

Rehearse in any language. Accept speech, pointing, signing or pupil-directed handling. Pause with tools down and work protected. Use a short agreed return cue.

Prompt ladder

Point to the place or instruction. Ask a short question. Rephrase. Offer a scaffold or choice. Model the first step only, then return the task.
