Teaching assistant brief

Design and Technology LAUNCH Spring 1 Week 6 Thursday 11 February 2027 P1 Year A

I can finish my item safely, test its purpose and explain what the evidence shows.

Before tools

Find the actual design and item. Confirm the adult has cleared the tools and any adhesive cure. Count needles out. A missing item or unresolved check uses simulation and keeps practical evidence pending.

I do and we do

Point to one action and allow thinking time. Model the first step only, then return the task. Support or carry out handling directed by the pupil where agreed. Record the actual role.

Independent stage

Maintain agreed supervision. Help use the actual cards and gentle upright check. Ask what happened and what it shows. Read scribed words back and allow correction.

Review

Check real evidence for each grid row. Keep gaps visible and support clear. Count every needle back and store all tools. The pupil supplies their own evaluation and next step.

Prompt ladder

Point to the place or instruction. Ask a short question. Rephrase. Offer a scaffold or choice. Model the first step only, then return the task.

Calm and communication

Rehearse in any language. Accept pointing, speech or signing. Offer a calm pause with tools down. A private adult review is available.
