Arts encounter and evidence notes

This week provides classroom making and skill practice. No visit, visitor, public performance or live encounter is confirmed or claimed.

Classroom option now

Discuss original teacher examples, practise a chosen technique and keep the pupil response. A description or model discussion is recorded as classroom exploration. It does not become evidence of an unconfirmed visit.

If an encounter happens later

Record the actual date, what pupils actively did and each pupil's confirmed view. Follow the owner's privacy and publication rules. Do not prefill an event or witness statement.

Materials free option

Use a short silent action sequence or a pupil-directed adult demonstration. Keep an oral log with a dated witness note when paper is available.

What good looks like

The record distinguishes the pupil's intention, observed actions and any later event still awaiting confirmation. Real gaps stay visible. A before or after record is labelled with its actual date and task.
