Arts encounter and evidence notes

This week includes description-based artist exploration, original responses and planning. No visit, visitor, public performance or live encounter is confirmed or claimed.

Classroom option now

Read the artist card in BUILD and discuss a method without displaying copied work. GROW pupils compare their own proposed ideas. Label both activities honestly as classroom learning.

If an encounter happens later

Record the actual date, active pupil tasks and each pupil's confirmed view. Apply the owner's privacy and publication rules. Do not prefill an event or witness statement.

Materials free option

Use original speech, silent actions or pupil-directed adult movements. A plan can be an ordered spoken sequence. Keep confirmed pupil words and a precise dated note when recording is available.

What good looks like

The evidence distinguishes artist facts, personal interpretation, original pupil choices and any event still awaiting confirmation. A GROW plan remains labelled a plan until making actually happens.
