Staff answers and checks

Arrival

A new start is valid. Do not claim an earlier trial without evidence.

Starter

The maker chooses meaning. Busy marks can feel joyful, tense or something else.

I do

CfU: How is this made: drawing each ridge, or rubbing over card under the paper? Rubbing over card. Re-show if needed.

We do

B. If A, model listening to advice then choosing. Parallel check: may two makers choose different textures for calm? Yes.

Create

Example only: I kept the rough patch and made the next one light because I wanted the energy to fade. A one-texture piece can also be deliberate.

Review

Keep and change are both valid when the reason relates to the intended effect.

Exit

Example only: I made a silent texture sequence. I changed the last move to a smooth glide to show calm.

Misconceptions and prompts

Pressing harder always gives a better rubbing

Use gentle pressure first. Too much force can tear the paper or hide texture.

Every pupil must touch a rough surface

Looking, directing an adult or using a silent movement texture is valid.

The same texture means the same feeling to everyone

Ask the maker for their meaning and reason.

Cold call with choice of response

Foundation: Point to the next step or a feature you chose.

Middle: What did you keep or change, and why?

Higher: How does this choice support your intended effect, and what still needs checking?

Adult evidence rule

Keep actual tests or versions, the pupil choice and reason, dated arts-log entry and actual support. A precise confirmed witness note is valid for performance or directed work. Do not prefill model answers as pupil evidence.
