Teacher and cover plan

BUILD Spring 1 Week 6 Monday 8 February 2027 P5 Year A Explore

My arts choices this term

Weekly outcome verbatim: Add a review to my arts log.

BUILD Weekly Spring row 93. Year A. Resilience & Change. Current level Explore.

40 minutes: Arrival 3; Starter 3; I do 6; We do 6; Create 14; Review 5; Exit 3. Tidy in the final two Review minutes. Source notes, demonstrations, routes and extra depth fit inside these stages.

Prepare

Actual arts log and own work from Weeks 1 to 5, including the Week 3 plan where relevant.

Six-outcome evidence sheet; keep actual dates, locations, pupil words and support.

Book and ordinary writing tools if available; oral or signed responses and adult scribing are valid.

Picture prompt strip from the accepted pack, read with its labels. No new art materials are needed.

Catch up

Use the actual available evidence. Date any new review or research today. Mark unavailable earlier work as a gap and never reconstruct it as old evidence.

Assessment

Use each pupil’s real evidence with the six exact outcomes from rows 88 to 93. Choose one status per row and add dates, locations and a comment. Record a gap without judging the pupil or filling it with a class model.

Arrival and starter

BUILD Spring 1 Week 6 Monday 8 February 2027 P5 Year A Explore

Arrival 3 minutes

Say and do: Bring the actual work from Weeks 1 to 5 and the log. The pupil chooses two useful examples, such as a colour or sound response and the later changed piece. A precise witnessed sound or movement record is valid. If an item is missing, mark the gap honestly. We are looking at the pupil's arts choices, not asking for a personal life story.

Look for: The pupil identifies actual work, or an honest current record. No earlier artefact is invented and private review is available.

Materials-free route: Read a real earlier witness note aloud. If none exists, invite a short current oral account and label it as recollection today. It does not prove a missing earlier performance.

Check and response: An original work, actual log or precise earlier witness note can support a claim. A new recollection is labelled as recollection.

Starter 3 minutes

Say and do: Use the eye and ear, numbered stars and tool picture prompts. The pupil may point while you read the labels. The stars prompt specific helpful features, not scores. Model the frames: I made ___. I chose ___ because ___. I changed ___. Keep the picture strip visible beside the pupil's own work.

Look for: The pupil links a prompt to a real feature and begins to distinguish a choice from a general judgement.

Materials-free route: Say the short labels look, listen, helpful part and change. Use gestures or spoken choices if printed prompts cannot be seen.

Check and response: A useful comment names a real feature, such as a soft beat or wide gap. Nice alone does not tell us what the pupil noticed.

Modelling and shared practice

BUILD Spring 1 Week 6 Monday 8 February 2027 P5 Year A Explore

I do 6 minutes

Say and do: Make a tiny adult silent sequence with a short pause, then repeat it with a longer pause. Say: I made a quiet sequence. I chose a slow ending for my calm idea. I changed the pause so the ending was easier for me to notice. I learned to test a change. Date it today. Explain that this is an adult example made now, not a pupil's half-term evidence. Model a short accurate scribed sentence and read it back.

Look for: The model connects a real action, a choice, a change and learning. The record uses the maker's words and identifies the real date.

Materials-free route: Perform or direct the two silent versions. The pupil can listen to an exact description and confirm the difference without moving.

Check and response: Check: Which tells us more, it was good or I made the pause longer? The second identifies an actual change. Ask what changed in the model.

We do 6 minutes

Say and do: Read two options: A I made every piece perfectly; B I made the pause longer and liked the clearer ending. Ask which the actual model supports. Choose B. Build one short review together, then leave the pupil's own review open. Read back any scribed words. Do not turn the class model into an answer the pupil must copy.

Look for: The pupil selects a statement supported by the actual work and can add or confirm their own view.

Materials-free route: Offer the two statements orally and accept a point, sign or agreed yes or no signal. Repeat the actual pause if needed.

Check and response: If A is chosen, show the one change again. Parallel check: Can one silent sequence prove every piece was perfect? No. Use one observed feature instead.

Independent task and evidence

BUILD Spring 1 Week 6 Monday 8 February 2027 P5 Year A Explore

Create 14 minutes

Say and do: Spend about eight minutes on the pupil’s review of the chosen examples. Use the picture prompts and one sentence starter at a time. Accept two or three meaningful sentences, recorded signs, drawings with the pupil’s explanation or exact scribed words. Then spend about six minutes looking across grid rows 1 to 3. Locate real evidence and add a brief comment or mark more to do or not yet seen. Use existing evidence rather than remaking all weeks. The pupil owns the review; the adult may write a separately labelled observation.

Look for: The review refers to actual work and a real choice or change. Grid rows have honest evidence references or gaps. Pupil and adult comments remain distinct.

Materials-free route: Use oral review and real witness notes. An adult records the pupil’s confirmed words when recording materials become available. Keep the actual date and do not claim a written entry exists until recorded.

Check and response: Possible pupil wording: I used a soft sound. I changed the last pause. I learned to try my idea twice. Accept different wording when the work supports it.

Review and exit

BUILD Spring 1 Week 6 Monday 8 February 2027 P5 Year A Explore

Review 5 minutes

Say and do: Read the review aloud privately. Ask if it says what the pupil meant. Let them correct a word, point to different evidence or say that a memory is uncertain. Use the last two minutes to store the work and log together. Mark which rows still need a conversation next lesson.

Look for: The pupil confirms or corrects their own review. Evidence is stored and gaps remain visible without a penalty or invented success.

Materials-free route: Repeat the oral review in short parts, allowing an agreed signal to confirm or change each part.

Check and response: The pupil can change a scribe’s wording. Support does not remove ownership, but the record must name the help used.

Exit 3 minutes

Say and do: Date this draft review and record the form and support used. Keep the pupil’s chosen evidence references and the first grid comments. This is a draft for Tuesday, not a completed award claim.

Look for: An honest dated review draft and evidence trail are ready for the second lesson.

Materials-free route: Retain a precise oral or signed review note at the next recording opportunity. Label a pending record honestly.

Check and response: A short review can be sufficient when it captures the pupil’s own choices, learning and evidence. Length is not the assessment target.

Access and adult support

BUILD Spring 1 Week 6 Monday 8 February 2027 P5 Year A Explore

Cognition And Learning

Show one prompt at a time. Model a short example, then fade to a sentence start. Revisit the same words and use the actual work beside the prompt. Chunk the six-week grid into two groups of three. Allow thinking time.

Communication And Interaction

Read all prompts aloud. Accept pointing, signing, speaking, drawing or pupil-directed adult recording. Offer a choice before an open question. Read scribed words back and let the pupil correct them.

SEMH

Keep review private and about choices in the work. Use invented or abstract ideas and avoid questions about personal adversity. No grades, rankings or public performance. Offer a calm pause and an agreed return cue.

Sensory And Physical

Offer a seated, silent route and a large print view. Use a description or precise witnessed sequence where a visual piece is inaccessible. The pupil can direct adult handling. Keep actual support visible in the record.

EAL

Plan in any language. Read the source note or prompt slowly and check meaning. Accept oral ideas before writing. Translate with support where available while retaining the pupil’s intended meaning.

Prompt ladder

Point to the place or instruction. Ask a short question. Rephrase. Offer a scaffold or choice. Model the first step only, then return the task.

TA focus

I do: Point to the evidence or source. Read the short frame and check meaning.

We do: Offer a brief question or choice, then wait. Model only the first step if needed.

Create: Scribe the pupil’s own words, read them back and record the real support. Keep adult judgement separate.

Where this leads

Artists use reviews and research to make choices and explain their work. These habits also support clear communication in many kinds of work.
