Teacher and cover plan

GROW Spring 1 Week 6 Monday 8 February 2027 P6 Year A Explore

An artist I want to learn about

Weekly outcome verbatim: Research an artist or performer who inspires me (Bronze).

GROW Weekly Spring row 93. Year A. Resilience & Change. Current level Explore.

40 minutes: Arrival 3; Starter 3; I do 6; We do 6; Create 14; Review 5; Exit 3. Tidy in the final two Review minutes. Source notes, demonstrations, routes and extra depth fit inside these stages.

Prepare

Actual arts log and own work from Weeks 1 to 5, including the Week 3 plan where relevant.

Six-outcome evidence sheet; keep actual dates, locations, pupil words and support.

Book and ordinary writing tools if available; oral or signed responses and adult scribing are valid.

Research notes M1 and T1, read aloud if needed. No pupil internet access or login is needed.

Catch up

Use the actual available evidence. Date any new review or research today. Mark unavailable earlier work as a gap and never reconstruct it as old evidence.

Assessment

Use each pupil’s real evidence with the six exact outcomes from rows 88 to 93. Choose one status per row and add dates, locations and a comment. Record a gap without judging the pupil or filling it with a class model.

Arrival and starter

GROW Spring 1 Week 6 Monday 8 February 2027 P6 Year A Explore

Arrival 3 minutes

Say and do: Explain that the scheme names Bronze in this week's outcome. The current pathway remains Explore. Everyone completes an accessible research record now; the record can also be retained as evidence for later arts inspiration work. It does not automatically complete that level. Bring the actual half-term log and six-outcome grid. No pupil needs an account, phone, internet search or public performance.

Look for: Pupils understand the core research task and have a private accessible route. The exact scheme outcome is visible without relabelling the whole term.

Materials-free route: Read the supplied fact notes aloud. The pupil may choose, ask and respond orally while an adult records exact confirmed words.

Check and response: Research is this week's task for GROW. Only extra depth is optional. The current award level stays Explore.

Starter 3 minutes

Say and do: Read the short original fact notes. Both artists have long-established public careers. Invite a genuine choice based on a method, career change or idea that interests the pupil. They choose one artist for the record. Another long-established public artist or performer is valid only with an adult-checked factual source and the same record fields. If neither supplied artist inspires them yet, let them research the more interesting method and record an honest response rather than inventing admiration.

Look for: The pupil chooses one subject and a question, such as how the artist changed a method or found ideas. A reason can be tentative and truthful.

Materials-free route: Offer the two names with a brief spoken description and let the pupil point, sign or say a choice.

Check and response: Both choices are valid. The pupil's reason must be their own. Do not score one artist as better than another.

Modelling and shared practice

GROW Spring 1 Week 6 Monday 8 February 2027 P6 Year A Explore

I do 6 minutes

Say and do: Model with M1: read the account of cut shapes and movable arrangements. Cover it and say, in fresh wording, that Matisse could try new positions for pieces before fixing them. Reopen the note and check the meaning. Name M1 and its printed title. Then say a personal view separately: I like the chance to test a layout. Show that swapping just one word is too close to copying. Write no quotation and reproduce no artwork. Model one career fact and one method fact as different kinds of finding.

Look for: The adult demonstrates read, cover, explain, check and source. A fact and a personal response remain distinct.

Materials-free route: Read a single fact aloud, pause, ask the pupil to explain it, then read the source again to check meaning. A scribe records the pupil’s wording.

Check and response: Check: Matisse cut painted paper is a source-supported fact. I find movable shapes useful is a personal view. Either needs accurate labelling.

We do 6 minutes

Say and do: Use T1. Compare A Alma Thomas continued developing her painting after retiring from teaching and B Her repeated marks give me an idea for my piece. Ask which is a checkable fact. Choose A; B is a personal response. Build a new sentence together and check it against the note. Hinge: is changing one word in a copied sentence enough to make the research your own? No. Explain the meaning without looking, then check accuracy. Adult model sentences remain examples, not pupil evidence.

Look for: The pupil separates fact from response and understands a repeatable own-word research process.

Materials-free route: Use spoken A and B choices and accept a signal. Scribe the pupil’s explanation and read it back.

Check and response: If B is chosen as fact, ask: Can the source prove what gives you an idea? No. Parallel check: retired in 1960 is a fact; I like this method is a view.

Independent task and evidence

GROW Spring 1 Week 6 Monday 8 February 2027 P6 Year A Explore

Create 14 minutes

Say and do: Use about ten minutes for the research record. Read or hear the chosen note, cover it, express the meaning, check it and name the source. Keep one checked career fact and at least one fact about the work or method. Add the pupil’s own response to a specific feature and one remaining question. Pupils may scribe or dictate. Use the last four minutes to locate evidence for grid rows 1 to 3 and mark honest gaps. The supplied note is an access source, not the pupil’s completed research. Do not require copying its sentences.

Look for: A dated record identifies one artist, a question, at least two accurate own-word findings, a source and a personal reason. Earlier grid rows have evidence comments or gaps.

Materials-free route: Read the note aloud in small parts. The pupil gives an oral or signed response. Scribe exact confirmed wording when possible and mark any later transcription as pending.

Check and response: Accept, for example, a correctly rephrased career change and one technique detail. If the pupil repeats the note exactly, cover it and ask them to explain the idea to an adult.

Optional further depth

Link a checked career fact to a method that interests you. Explain what your source cannot answer and choose a useful next research question.

The core research is this week’s task. This extra depth is optional. The current log remains Explore.

Review and exit

GROW Spring 1 Week 6 Monday 8 February 2027 P6 Year A Explore

Review 5 minutes

Say and do: Ask the pupil to point to the source for each fact and to identify their personal response. Correct an error together without replacing the pupil’s voice. Note one question or feature to consider next time. Use the final two minutes to store the source prompt, research record and actual log evidence.

Look for: Facts are checked and separate from interpretation. A genuine question supports the second lesson.

Materials-free route: Read the fact and source aloud and ask for confirmation or correction through the pupil’s chosen response mode.

Check and response: We can check a method from the source. We cannot infer an artist’s private feelings from the method or impose a universal meaning on a colour.

Exit 3 minutes

Say and do: Date the actual research and record the source label, supplied title, access method and support. Keep the pupil’s own words. Carry the same chosen artist into Wednesday unless the pupil has a clear reason to change. A change of artist needs a real new record, not a relabelled old one.

Look for: The research has a truthful evidence trail and a clear next step.

Materials-free route: An adult keeps a precise dated note of the pupil’s own oral or signed research and reads it back.

Check and response: The source can be a supplied printed note read aloud. The log must accurately name that route rather than claim the pupil visited a museum or website.

Access and adult support

GROW Spring 1 Week 6 Monday 8 February 2027 P6 Year A Explore

Cognition And Learning

Show one prompt at a time. Model a short example, then fade to a sentence start. Revisit the same words and use the actual work beside the prompt. Chunk the six-week grid into two groups of three. Allow thinking time.

Communication And Interaction

Read all prompts aloud. Accept pointing, signing, speaking, drawing or pupil-directed adult recording. Offer a choice before an open question. Read scribed words back and let the pupil correct them.

SEMH

Keep review private and about choices in the work. Use invented or abstract ideas and avoid questions about personal adversity. No grades, rankings or public performance. Offer a calm pause and an agreed return cue.

Sensory And Physical

Offer a seated, silent route and a large print view. Use a description or precise witnessed sequence where a visual piece is inaccessible. The pupil can direct adult handling. Keep actual support visible in the record.

EAL

Plan in any language. Read the source note or prompt slowly and check meaning. Accept oral ideas before writing. Translate with support where available while retaining the pupil’s intended meaning.

Prompt ladder

Point to the place or instruction. Ask a short question. Rephrase. Offer a scaffold or choice. Model the first step only, then return the task.

TA focus

I do: Point to the evidence or source. Read the short frame and check meaning.

We do: Offer a brief question or choice, then wait. Model only the first step if needed.

Create: Scribe the pupil’s own words, read them back and record the real support. Keep adult judgement separate.

Where this leads

Artists use reviews and research to make choices and explain their work. These habits also support clear communication in many kinds of work.
