# Sequence and evidence guide

Creative Arts Spring 1 Week 6 Year A Explore

Creative Arts Spring 1 Week 6. Year A. Theme Resilience & Change. Both pathways remain Explore. This is the assessing week.

## BUILD

Monday 8 February 2027 P5 and Tuesday 9 February 2027 P1.

Add a review to my arts log.

Use actual half-term work, picture prompts and sentence starts. Monday develops an own-word review and begins the evidence grid. Tuesday checks the review, adds it to the arts log and completes honest comments across all six outcomes. Scribe where needed and read words back.

## GROW

Monday 8 February 2027 P6 and Wednesday 10 February 2027 P5.

Research an artist or performer who inspires me (Bronze).

The scheme names Bronze verbatim. The core task is an accessible research record for the current Explore log. Choose one long-established public artist. Use original supplied fact notes, a research question, own-word career and work findings, source details and a personal response. Wednesday adds an original next idea, actual private sharing status and the six-outcome review.

# Assessment and progression

Creative Arts Spring 1 Week 6 Year A Explore

## The six-outcome grid

Every lesson evidence sheet contains its pathway’s exact six weekly outcomes from rows 88 to 93. The grid has Shown, More to do and Not yet seen choices with a comment field. Use actual dates, evidence locations, pupil words and help. Do not assume a missing record proves absence or failure. Do not award a whole level from these ticks.

## Current log and later progression

Keep GROW research in B Explore now. Retain it as a possible later arts inspiration record: who and why, a research question, career and work findings in the pupil’s own words, source details, a feature-specific personal response, and actual sharing or pending status. A future adviser checks suitability and any gaps against the requirements then in force. Research alone does not complete the next award level.

## Pupil ownership

Adult scribing, reading aloud and access support are valid when the pupil supplies and confirms the meaning. Identify support. Keep adult observations separate. No copied passages, artworks, lyrics or quotations are supplied or requested.

## Research sources

M1 is an original classroom summary based on a museum studio-method account of Henri Matisse’s cut-outs. T1 is an original summary based on a museum collection biography of Alma Thomas. Both were checked on 30 October 2026. Printed source titles and labels identify the actual classroom route. No website addresses, linked pages or reproduced works are included.

# Portable resources and arts log

Creative Arts Spring 1 Week 6 Year A Explore

Choose School or Public. Both contain the same generic classroom resources. Keep the assets folder beside the HTML. Use the dated teacher plan for preparation, the slides or HTML for teaching, and the PDFs for checked print layouts.

## Timing and access

Arrival 3; Starter 3; I do 6; We do 6; Create 14; Review 5; Exit 3. Tidy in the last two Review minutes. Models, sources, routes and optional depth fit within these stages. Use a silent, seated or privately scribed route. No pupil login or personal disclosure is needed.

## Five-file log pattern

A Take part: actual participation. B Explore: real research and personal response. C Create: actual plan, work and revisions. D Share: only actual sharing and listener response, or pending. Evidence index: where each real item is kept. Continue the pupil’s existing log; blank templates are optional prompts.

## Term close

This bundle completes the six-week teaching sequence. Keep unfinished or missing evidence visible and agree a small next step. Pause after delivery. No later week is included.
