

Week 3 Build the world

Challenge · GROW computing · 40 minutes

Name: _____ Date: _____

I can create a maze, a player and a finish as three sprites.

Point, say, draw or write. Someone may record your exact words.

Arrival > Starter > I Do > We Do

I Do 2 > We Do 2 · Task > Independent Task > Exit

Shared lesson 0 to 25 minutes

Start a new project with W03_Blank.sb3.

Join the Starter, I Do and We Do tasks with the class. Predict before each shared test.

GROW stage	What I will check
Starter	Look at the small player and the large player.
I Do	Maze holds the walls.
We Do	Trace a route together.
I Do 2	Place Player away from a wall.
We Do 2 · Task	Name each of the three sprites.

The common task comes first

During Independent Task, complete these core actions before the challenge:

- ☐ Open W03_Blank.sb3 in Scratch.
- ☐ Paint a new sprite. Name it Maze. Draw walls with clear gaps.
- ☐ Create a small Player sprite. Name it Player.
- ☐ Create a Finish sprite. Name it Finish.
- ☐ Place Player at a clear start. Place Finish at the end.
- ☐ Check a route with a token or by dragging Player. Save your maze.

A further coding investigation

Independent Task 25 to 35 minutes · Use remaining task time

- 1. Complete the three-sprite maze first.
- 2. Try a larger player in the layout model or a spare copy.
- 3. Find a gap that becomes too small. Explain why.
- 4. Keep or change one design choice so the final route works.

What I changed	My prediction	What happened

My reason or repair

My idea and its effect

Which passage, object or mission detail should change? Choose one useful layout change.

What I said

What the adult said back and what changed

What I said, and what it changed. You can say this privately or have your words written for you.

Exit 35 to 40 minutes

- ☐ Save as W03_Maze.sb3.
- ☐ Load the saved file.
- ☐ Run the check or select the three sprites.

File > Save to your computer. Then File > Load from your computer. Keep the .sb3 file in your school folder.
