

Week 4 Make controls reliable

Main task · GROW computing · 40 minutes

Name: _____ Date: _____

I can create and test all four arrow controls in my maze.

Point, say, draw or write. Someone may record your exact words.

Arrival > Starter > I Do > We Do

I Do 2 > We Do 2 · Task > Independent Task > Exit

Arrival 0 to 3 minutes

Open your own W03_Maze.sb3.

Starter 3 to 6 minutes

The up key changes x by 10. Predict the direction Player moves.

My prediction

I Do 6 to 11 minutes

Watch the model. Point to the sprite or block that matters.

We Do 11 to 18 minutes

Predict. Ask a partner or adult to check your idea. Test together. Explain what changed.

Shared test	We expect	We see
Reset, then up	Moves up	
Reset, then right/up/left/down	Returns to start	

I Do 2 18 to 21 minutes

Up and down use y. Up adds 10. Down adds -10.

We Do 2 · Task 21 to 25 minutes

Show your next action. Choose a task route with your teacher.

Reset Player. Predict right, up, left, down.

My coding task

Main task · Independent Task 25 to 35 minutes

- ☐ Select Player in your own maze.
- ☐ Record a safe start from its x and y boxes.
- ☐ Build a green-flag script that goes to that start.
- ☐ Build separate right, left, up and down key scripts.
- ☐ Reset before testing each direction with one press.
- ☐ Test right, up, left, down from reset. Check the return.

My safe start: x _____ y _____

One test I ran	Expected result	Actual result

My idea and its effect

Which key or action needs clearer help? Choose a useful support or step-size change and test it.

What I said

What the adult said back and what changed

What I said, and what it changed. You can say this privately or have your words written for you.

Exit 35 to 40 minutes

- ☐ Save as W04_Controls.sb3.
- ☐ Load the saved file.
- ☐ Run the check or select the three sprites.

File > Save to your computer. Then File > Load from your computer. Keep the .sb3 file in your school folder.
