

Week 7 Add one challenge

Main task · GROW computing · 40 minutes

Name: _____ Date: _____

I can add one new feature that changes how the game is played.

Point, say, draw or write. Someone may record your exact words.

Arrival > Starter > I Do > We Do

I Do 2 > We Do 2 · Task > Independent Task > Exit

Arrival 0 to 3 minutes

Open your own W06_Win.sb3. Save a copy as W07_Challenge.sb3.

Starter 3 to 6 minutes

Which one changes what the player must do?

My prediction

I Do 6 to 11 minutes

Watch the model. Point to the sprite or block that matters.

We Do 11 to 18 minutes

Predict. Ask a partner or adult to check your idea. Test together. Explain what changed.

I Do 2 18 to 21 minutes

The consequence belongs to Player.

We Do 2 · Task 21 to 25 minutes

Show your next action. Choose a task route with your teacher.

Test a run with no contact.

My coding task

Main task · Independent Task 25 to 35 minutes

- ☐ Save a copy as W07_Challenge.sb3. Keep W06_Win.sb3 safe.
- ☐ Create a small sprite named Hazard. Place its journey across a usable route.
- ☐ On Hazard, set its start, then put two glide blocks inside forever.
- ☐ On Player add a second forever check: if touching [Hazard]? then go to your safe start.
- ☐ Test an ordinary run, then test the narrow gap while your feature is moving.
- ☐ Check the four controls, the wall rule and the win still work.

My safe start: x _____ y _____

Shared test	We expect	We see
Ordinary run, no contact	Player reaches Finish as before	
Contact with my feature	A consequence the player can see	
Fresh green flag	The feature starts moving again	
One test I ran	Expected result	Actual result

My idea and its effect

Revisit your Week 2 mission idea. Which feature is achievable today? Agree an adaptation and say why.

What I said

What the adult said back and what changed

What I said, and what it changed. You can say this privately or have your words written for you.

Exit 35 to 40 minutes

- ☐ Save as W07_Challenge.sb3.
- ☐ Load the saved file.
- ☐ Run one check from the list above.

File > Save to your computer. Then File > Load from your computer. Keep the .sb3 file in your school folder.
