

One new challenge

I can add one new feature that changes how the game is played.

Open your own W06_Win.sb3. Save a copy as W07_Challenge.sb3.

You can point, say or write. Quiet working is available.

Which one changes the game?

A new background only looks different.

A moving obstacle changes the route.

Which one changes what the player must do?

Only a new background

The same route and rules

A moving Hazard + contact rule

Choose a route or time a crossing

An obstacle that moves

Create a new sprite and name it Hazard.

Give it two glide blocks inside forever.

Put both glides inside forever. Keep the route clear of the start.

Select Hazard

when green flag clicked

go to x: 0 y: -100

forever

glide 2 secs to x: 0 y: 100

glide 2 secs to x: 0 y: -100

Use clear endpoints in your own maze.

A hazard meeting

Player waits at x 0, y 0. Hazard starts at y -100.

Predict what happens after 1 second, then test.

Repeat with Player at x 30, y 0.
Explain the difference.

Prediction → test → explain

Meeting: Player at (0, 0)

Clear space: Player at (30, 0)

The contact rule

The consequence belongs to Player.

Player checks touching Hazard?

Contact returns Player to the safe start.

Select Player

when green flag clicked

forever

if <touching Hazard?> then

go to your safe start

Model start: x -180, y -120

A usable route

Test contact, then a route that avoids Hazard.

Restart and watch the complete outward and return journey.

Choose a size and position that leave a route to Finish.

1 Avoid it

Player stays on the route.

2 Touch it

Player returns to the start.

3 Play again

Reach Finish on a fresh run.

Your new feature

Step by step

Build a moving Hazard and its contact rule, one step at a time.

Main task

Build both scripts. Test contact, avoidance and a fresh run.

Challenge

After the core task, compare 2-second and 4-second glides.

32–35: Show a test and what your idea or feedback changed.

Exit 35-40 minutes

A changed game, saved

Save as W07_Challenge.sb3.

Load it and show the new feature.

Explain the extra challenge.

What I said, and what it changed
