Mental health and support

Understand mental health and where to get support.

Use made-up stories. No one has to share real feelings or a real story. Keep your usual aids. You can pass or ask for a pause in the agreed way.

What to show

Say that everyone has mental health. Use a clue in the story. Say who could help and why. Add a private way to ask and a next route if help is not enough.

Two choices

1 Make a support map for B. 2 Write an advice note for C. Both use the same checks. Use your book, aid, typing or a scribe. The adult reads back your words so you can change them.

Main task choice

Words: clue · adult · request · reason

Start: The person could… because…

Model: The person could ask a trusted adult because daily life feels hard.

Check your learning

Ready to explain [ ] With a prompt [ ] Need another example [ ]

This checks your learning about the stories. It does not rate your health or feelings. Leave it blank if you pass.

One next step

Keep the first try. Use one next step from the adult. Show your reply in your own way. Your private keep card is not part of this sheet.

Type instead

Choose 1 map B or 2 advice note C. Type short notes here or use the note space. All spaces start blank. Use a work code, not a name.

Prompt	Your words
Choice and story letter	
Mental health means	
A possible clue in the story	
Who could help and why	
A private opener	
If more help is needed	
One next step and my reply	
Advice note if chosen	

Save in the usual way with the lesson code and work code. Show the adult in private. No real names, health details or private card here.

Adult note on work code, usual aids and answer cues:
