Supported

In your book: Four short responses, marks or adult-recorded pupil choices, unless passing.

1. A change

What does it mean if a plan changes?

Clue: Think about a plan that is not the same.

2. A reason

What can help explain a choice?

Clue: Think about why someone chooses.

3. Getting help

If a task is hard, what could a person do?

Clue: Think about a safe way to get help.

4. Link to today

Could two people give different reasons for the same kind act?

Clue: Think about how people can think in more than one way.

In your book: Both brief Exit responses and a confidence mark, unless passing.

Fresh Exit source

Fresh invented case: a shared meal must move because a room is closed. A supplied worldview card says to use reason and care when making choices. The helper checks the facts and asks who needs help. The case gives no personal belief.

1. Scheme check 1

How does the action link to the card?

2. Scheme check 2

What could the card help the person do next?

Confidence

Confidence: 1 = not sure yet; 2 = partly sure; 3 = sure.

Starter and method strip

Starter

Question: If a plan fails, does that prove the people have failed?

In your book: One brief choice or response.

Method

Worked method model

I read B. It asks people to use reasons and care when choosing.

In C, a helper could ask what is safe and listen to the group. This links the source idea to an action.

I say “could”. I do not know the helper’s beliefs, and I do not promise the garden will be fixed.

In your book: Keep one useful model note or word meaning. Mark it as model, not your own evidence.

Feedback codes

VF means spoken feedback. WS means worked with support. I means independent.

NS means one next step. E means evidence kept on the evidence app.

R means responded: an adult heard the response and it shaped the next step.

// marks a self-edit point. ? means read this back to me. You may show or sign your meaning.

Source and check

A belief or value can guide a response to change.

We can suggest what a person could do without guessing their worldview.

Support can include facts, care, safe help, rest or a new plan. It is not a promise that all hardship ends.

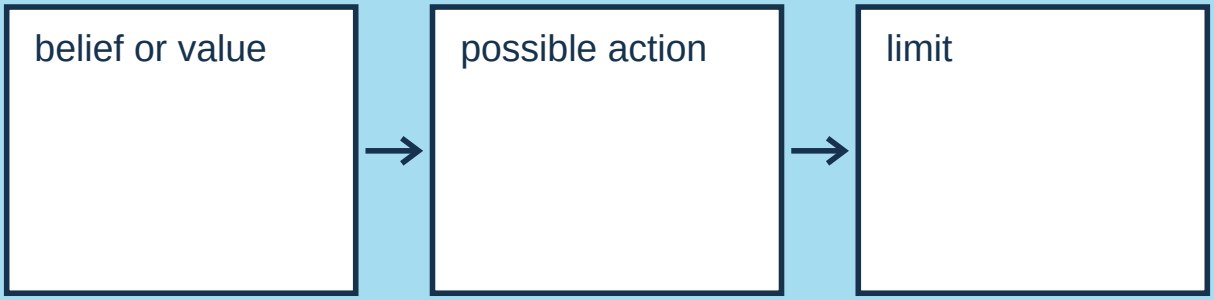

Use the supplied third-person sources. No personal belief or loss story is needed. You may use the neutral case to explain a source idea, or pass.

Three empty boxes labelled belief or value, possible action, and limit are linked. No personal belief or completed answer is shown.

Cut-out cards and guided record

We Do

Use A and C. Choose one caring action for the group and link it to the source.

Record: “This source values [ ]. A helper could [ ] because [ ].”

In your book: One guided record and your own source detail, choice or starting step.

Card A — G-P-S5; one Christian account, in new words

This Christian account links hope to belief in the central teacher rising from death. It urges care and kindness for people in need. Some Christians draw hope from this belief. It does not mean that pain or hard change must end at once.

Card B — G-P-S3 and G-P-S4; a humanist account, in new words

This humanist account uses reason, evidence and care for others. It asks people to think about the effects of a choice and to listen. A person can change a plan when new facts arrive. Humanism is a non-religious worldview. It is not a label for all non-religious people.

R1: A plan changes when part of it becomes different. A changed plan does not prove a person failed.

R2: A reason explains a choice. A guess about a person's belief is not evidence.

R3: Support can include safe help, rest or a new plan. Different people can give different reasons for the same kind act.

60-second recap: A change makes a plan different. A reason explains a choice. Help, rest or a new plan may support a person. No past lesson is assumed.
