How can belief support resilience without promising an easy outcome?

Today I can… □ link a source belief to a possible response and explain why hope is not a guarantee.

Feedback: □ VF □ WS □ I □ NS □ E □ R □ [//] □ [?] _____

RE learns about ethics and worldviews; this activity is not worship. Reflection is optional and never worship.

Teacher and cover plan

1. Lesson outcome. LAUNCH-RE-S1-W04; Ethics, justice and resilience. Outcome: Resilience & hope in belief. To be able to… explain how a belief can support resilience and hope while recognising limits and practical needs. Success today: I can… link a source belief to a possible response and explain why hope is not a guarantee.
2. Arrival 1–4. 5 min · KEEP. Use one tier: three prior checks and the link. Keep four first responses; recap only after first try. TA: Help locate the first question and begin within about two minutes. Avoid: Do not answer the four questions or reveal recall before the first attempt.
3. Starter. 3 min. Authored planning statements: “We can try a checked, smaller step” and “Nothing can ever go wrong if we believe.” Question: Which statement allows hope while recognising uncertainty? In your book: record one brief choice or reason, unless passing. TA: Read the single question once and allow private thinking. Avoid: Do not provide the response or turn this into a second retrieval grid.
4. I Do. 6 min · KEEP. Use the complete I Do method model and its named source. Record one useful model step or word; no board copying. Hide the model before the own task. TA: Support attention to the one chunk and point to its source. Avoid: Do not give a parallel explanation or require copying from the board.
5. We Do. 8 min · KEEP. Use the We Do source and prompt. Keep one guided example and the pupil’s own contribution before revealing the shared check. TA: Prompt one contribution and an exact pupil-owned record. Avoid: Do not complete the guided response for the pupil.
6. You Do. 15 min · KEEP. Use the chosen source-based route. Keep the pupil’s response and review within the allocated You Do time; exact route and answer guidance are in Staff_Answers.pdf. TA: Offer the independent attempt first, then use the held ladder and record actual support. Avoid: Do not give a content answer or leave a complete model visible throughout the attempt.
7. Support routes. Independent first; Supported then Choice as needed; Aspire is separate. Staff record actual I/S/C and exact prompts; leave the pupil’s box empty.
8. Adaptations / normal ways of working. Pre-teach key terms; chunk sources/data; dual coding; model first question/paragraph; scaffold then fade; accessible font/spacing; reader/scribe/laptop/overlay and extra processing time; private pass; planned regulation/movement break, return to step 1 on current source task; no harm enactment or personal disclosure; neutral community-case alternative; no real flame or sacred-object handling; no compelled forgiveness. No cold calling; nobody is asked to read difficult text aloud.
9. TA focus. Designated evidence adult: classroom-support adult; lead teacher receives the full response. Record actual source access and prompting; never improve the baseline or mark prompted work independent. Held prompt ladder: page 2.
10. Exit 1–3. 3 min · KEEP. Use one tier and the whole fresh source: both unaltered checks, confidence 1–3 and separate adult prompt record. No other help; use responses for the next lesson. TA: Ensure an attempt in the chosen mode and record actual prompting. Avoid: Never change an answer or supply a clue, answer stem, Word help or organiser during the checks.
11. After teaching. Misconception: _____ Response: _____ Next step: _____ Evaluation: _____
12. Preparation / evidence / cover essentials. PPT; H1–H5 strips; book; Word help; blank record; route; Pause card. Educational RE; optional reflection. Protected descriptions; no sacred originals, real flame, harm enactment, compelled forgiveness or personal disclosure. Neutral case, private pass and quiet return. All help closed at Exit. Full care/answers: TA_Brief.pdf / Staff_Answers.pdf. Classroom-support adult captures the exact response, mode, route and prompt; checks, tags and uploads to the evidence app the same day, 14:10–14:30. Lead teacher receives the whole response, names the change back and records the actual next step. R requires receipt and influence. Final three minutes of You Do: pupil-owned response. If pending, reserve 10–15 minutes of the next taught session before new input; do not mark R. KEEP: six stages 5/3/6/8/15/3; source, model, guided example, independent response/review and both Exit checks. Shorten repetition or optional Aspire first. Six-stage timeline (minutes): 00–05; 05–08; 08–14; 14–22; 22–37; 37–40.

How can belief support resilience without promising an easy outcome?

Today I can… ☐ link a source belief to a possible response and explain why hope is not a guarantee.

Key answers and adult prompt ladder

Arrival key answers. Supported: 1. Care for need and effects on people.; 2. A source treated as a guide or reason for a judgement.; 3. No. Members may interpret values and make decisions differently.; 4. Support, an achievable goal, a reason for hope or permission to pause; no personal account needed. Standard: 1. Both could care about urgency and harm, so whether another safe source was available mattered to the decision.; 2. V1 appealed to a Christian sacred teaching; V2 described evidence, reason, empathy and discussion within a humanist approach.; 3. It limited the claim to a possible view rather than making an unsupported universal statement.; 4. It may shape meaning, motivation or a choice of action, but the practical effect depends on circumstances. Stretch: 1. The Christian application explicitly appealed to sacred teaching; the humanist application to evidence, reason and empathy. These could converge without being identical.; 2. The Christian account could also use evidence and reasoning. The comparison concerned stated grounds, not whether either group could think or care.; 3. They may interpret the teaching differently, weigh urgency or commitments differently, or predict different consequences while sharing some values.; 4. Distinguish possible encouragement or meaning from a guaranteed outcome; do not assume everyone responds identically.

Exit Ticket key answers. Supported: 1. Asking for help, using an available room or planning a smaller activity.; 2. No. It records a reason and plan; the outcome is unknown. Standard: 1. The care belief gives a reason to continue; requesting help and adapting the activity provide practical ways to act. Neither guarantees success.; 2. Pausing can be part of regulation or adaptation. The case gives no evidence that this person lacks resilience, and participation is not compelled. Stretch: 1. It supports a possible link between a care belief, motivation and an adapted plan, not a universal or guaranteed result.; 2. Credit a judgement such as: the plan may support continuing with help, while pausing remains a legitimate choice; later success and individual experiences are not established.

Answer reference. Staff_Answers.pdf: Arrival and Exit by tier, then guided and route answers. Check the accepted source before accepting equivalent answers.

Prompt ladder for adults. 1. Point to the relevant place / instruction. 2. Ask one short question: "What is it asking you to find?" 3. Rephrase the instruction in simpler language. 4. Provide a scaffold or limited choice. 5. Model the first step only, then return the task to the pupil.
