Weekly plan row

Wednesday 10 February 2027 · P1 · 40 minutes · Year A

RSHE · BUILD · three to four learners · Spring 1 Week 6 · 8–12 February

Theme Resilience & Change. This is the assessing week. Six-week term; final week.

Exact outcome

Show a coping strategy in a real situation.

Learning and evidence

Choose and actually show a familiar safe strategy in up to three mild circuit contexts. No added noise, surprise switch, induced frustration or real-worry account. Record actual action/request separately from card choice and explanation. Fewer stations, pass and observer route are valid. Pupil keeps the strategy card; it is not collected evidence.

Forty minutes

0–12	Starter, familiar choices, actual model/check and reset.
12–25	Mild station preview, private hinge, choice/plan and reset.
25–40	TA opportunities, own check/card, NS/reply, exit and grid.

Assessing week record

Use the six verbatim outcomes and unticked Shown / With help / Not seen grid. Cite dated evidence, context, action and support. Do not infer all six from one try. Week 3 requires actual unprompted calming use with usual aids. Week 6 real-situation use stays Not seen unless a safe natural event or specific dated prior record shows it. Circuit simulation alone does not meet that element.

Access and private help

Every task keeps bank, starter and model; usual aids remain. Log content cues separately. Actual physical action cannot be scribed. Own Yes/A bit/No/Not sure is valid. Support privately without pressing; any disclosure goes to the safeguarding lead through school procedure. No probing or secrecy promise.

Where this leads

This helps me use a safe step or ask for help with a new task or job.

Source and portfolio

Owner brief supplies row 69; six outcomes checked against accepted packs. Workbook not reopened. Offer to the Communication portfolio; staff confirm mapping. Only BUILD Week 6 authored.
