ASSESSING WEEK RESILIENCE & CHANGE

Finish and evaluate our card pouch

I can finish my item safely, test its purpose and explain what the evidence shows.

Weekly outcome

TEXTILES: finish and evaluate a textile product.

Use your actual design, item and evidence.

ARRIVAL 5 MINUTES

Our item and purpose

Find your design, item and earlier records.

Choose a safe finishing action with the adult.

Put tools down while you check the plan.

STARTER 3 MINUTES

Evidence or prediction

Which statement is a real result?

I think the cards will fit / I put three cards in and they fitted.

Use a safe test to check a prediction.

I DO 5 MINUTES

A finishing action shown

Watch the agreed securing and trimming routine.

See how the adult counts tools back.

Keep sharp parts away from the test.

WITHIN I DO MODEL THEN FADE

A safe finishing sequence

Check the item and count needles.

Secure the loose end with the agreed method.

Trim only the loose tail. Return and count tools.

Test after sharp parts are removed and any adhesive fully cures.

WE DO 7 MINUTES

Finish with the agreed support

Complete or direct your agreed finishing action.

Check joins and loose ends against the design.

Return and count tools before testing.

WE DO 2 5 MINUTES

A safe test decision

A needle is still in the pouch.

Choose: test now, hide it in the seam, or stop for the adult’s removal and count.

Test only after the item is cleared.

INDEPENDENT 8 MINUTES

Test and evaluate my item

Try the three cards without forcing them.

Hold the cleared pouch upright and lift gently.

Record actual results, one improvement and the help used.

WITHIN INDEPENDENT ONE ROUTE AT A TIME

Supported Standard or Stretch

Supported: one action or test with an adult.

Standard: test and explain actual results.

Stretch: compare a real result with your prediction.

Every route keeps support and unfinished work honest.
