# Explain the causes of war

Tuesday 5 January 2027 | P2 | 40 minutes | Year A

Humanities | LAUNCH | Spring 1 Week 1 | HUM-LAUNCH-S1-W01

White paper version. Read quietly, point, write, type, speak privately or direct a scribe. You may pass. No public answer or reading aloud is required.

**Route Supported | HUM-LAUNCH-S1-W01-E1**

Learning outcome: Explain the causes of a 20th-century conflict.

In your book, or through your chosen response mode, explain the causes of the Second World War in Europe.

1 Use S1, S2 and S4. An adult may read them privately. Place 1919, 1933 and September 1939 in order.

2 Choose two causes from S1 and S2. Say, point or write what each changed. Use because to explain how it raised the risk of war.

3 Use S4 to identify the invasion of Poland as the immediate trigger. Keep your own explanation with two dated facts and source codes.

## Partner check

Analyst chooses a cause and explains its effect. Evidence Checker finds the date and source and asks how it increased the risk of war. Swap after the first link. Each learner keeps an individual final explanation. Neither learner speaks for both.

## Frames for reasoning

One cause was ____. S__ records ____ in ____. This increased the risk because ____. Another cause was ____, which ____. The immediate trigger was ____.

## My own finish

Keep your own causal explanation with at least two causes, dated evidence and source codes, a because link for each cause, and the immediate trigger. All routes explain the same conflict. Choose a brief paragraph, linked notes, a directed diagram or a private recorded explanation with exact scribing.

You may plan in any language. Record the help actually used. A pause is available privately.

Learning outcome: Explain the causes of a 20th-century conflict.

In your book, or through your chosen response mode, explain the causes of the Second World War in Europe.

1 Use S1 to S4. Sort the treaty context, Nazi aims, attempted appeasement and immediate trigger. A factor can connect to another.

2 Explain at least two causes using dated evidence and source codes. Link each fact to how it raised the risk of war. A date list alone is not an explanation.

3 Identify the immediate trigger. Add a sentence explaining why one cause alone is insufficient. Keep your own conclusion.

Learning outcome: Explain the causes of a 20th-century conflict.

In your book, or through your chosen response mode, explain the causes of the Second World War in Europe.

1 Use S1 to S4 and, if useful, S5. Compare the importance of Nazi aims, treaty resentment and failed appeasement. Treat the pact as an enabling factor.

2 Explain how two or more factors interacted. Use at least three dated facts and source codes. Distinguish background conditions, decisions and the immediate trigger.

3 Make a reasoned judgement about the most important cause. Test the claim that war was inevitable. State what these short summaries cannot establish.
