Evidence of source evaluation

Tuesday 19 January 2027 | P2 | 40 minutes | Year A

Humanities | LAUNCH | Spring 1 Week 3 | HUM-LAUNCH-S1-W03

White paper version. Read quietly, point, write, type, speak privately or direct a scribe. You may pass. No public answer or reading aloud is required.

Learning outcome: Evaluate survivor testimony (curated online archive).

HUM-LAUNCH-S1-W03-E1 | Actual date _____ | Route _____

Keep your own notes and judgement in your book. This sheet is an adult record of where the evidence is held, not a write-on pupil task.

Check	Prompt for your book
Who	Who witnessed the event? Who recorded or edited the account? What could each know?
When recorded	Keep the event date and recording date separate. How long was the gap?
Purpose	Why was it made, for whom, and in response to which question?
Memory and time	What is clear, uncertain or outside the witness's view? Time matters, but later does not mean false.
Corroboration	Compare a specific claim with evidence from a separate origin. Check documents too.
Use and limits	What can this account help us understand? What cannot it establish alone?

Adult record of actual evidence

Book or work reference _____ Mode / help _____

Own judgement and two source codes _____

General application and respectful listening _____

Route used: no archive / approved teacher live use _____

Archive use or testimony evaluation actually evidenced _____

Adult reply / NS _____ Learner response _____

Deferred work _____ Actual banking _____

Offer to the Communication portfolio. Record R only after the learner gives an idea, an adult audience replies with one NS (next step), and the learner responds in the same colour, on the same page or usual mode. Record E only after actual banking. Keep the response mode and actual help. A partner answer does not establish both learners' understanding.
