Teacher and cover planner

My skills and next step: assessing lesson

Week beginning 14 December 2026 · one 40-minute lesson

Actual date _____ Staff role _____

Year A · Term theme: Identity & Belonging

Thread tags: SMSC S/So (M/C: none); British Values IL/MR (D/RL/T: none).

Approved objective and source

Show a work skill, link it to a job and identify a next step.

Source: owner-approved weekly outline; revision approved-2026-10-26.

Assessment focus

Review familiar learning from Weeks 1–6. What work shows a skill? What could I try next?

Match two job tasks; follow two steps; ask for a missing fact; link earlier work to a skill and job task; choose a next step after feedback.

CAREERS-BUILD-A2-W07-E1: An individual assessment record of job knowledge, task performance and help used; initial responses, later feedback response and next step kept separately. Earlier work is linked by code and actual date, with gaps retained.

Before pupils arrive

Print Evidence Sheet pages 1–3 and Support Cards pages 1–3. Cut job and task cards, circle and square tokens; keep trays intact. Use one private set per learner. Gather earlier work with codes and dates. Have the usual aid and a separate response colour ready. Keep the answer key private. Plan brief observed turns; log tasks not observed.

Calendar and continuity

Year A. Autumn 2 Week 7: 14–18 December 2026. One 40-minute assessing lesson. No day or clock slot is inferred. Weeks 1–6 were formative; this lesson gathers and reviews their evidence.

Where this leads

This helps me show my skills and plan what to practise next.

Forty minute sequence

Slide	Min	Action
1	0	Introduce this review of familiar learning and read the careers line.
2	3	Offer the usual response mode, pause or aid. Record unobserved work.
3	4	Gather earlier work by code and actual date. Use the half-term audit. Keep gaps clear; do not rehearse answers.
4	0	Read the objective and success checks without modelling answers.
5	3	Explain first response, access help and later feedback. Record any answer cue or reduced choice as content support.
6	6	Use Support Cards page 1. Record both first matches and one reason. Private key: A–3, B–1; 2 spare.
7	10	Observe page 2 then page 3 individually: order, set, question, reply use and help. Mark unobserved tasks. Protocol: Staff Answers.
8	6	Use Evidence Sheet page 2. Record the initial skill and job link. Check work ownership, date and individual contribution.
9	6	Give one specific feedback point after initial checks. Keep the first record. Use page 3 for the separate reply, help and next step.
10	2	Confirm the skill, next step, support and work storage reference. Keep unfinished evidence clear.
11	0	Familiar word mat available for access. Record if an explanation supplies an assessed answer.
12	0	Hidden staff slide. Read protocol and key before teaching.

Initial checks and feedback boundary

Do not reteach or model target answers before the initial record. Read exact words and scribe without correction. Record content prompts. After all initial checks, give one feedback point and record a separate response or retry. Missing evidence is not a wrong answer.

Routes and task

Supported: Read the same task words without suggesting an answer. Allow pointing, an aid or exact scribing. If choices are reduced, a step is prompted or a question is supplied, record that content support. Keep the first response before any help.

Independent: Complete the familiar job matches, two-step task and clarification check. Link an earlier work sample to a skill and job task. Choose a next step after feedback; record any help actually used.

Aspire: Complete the same initial checks. Compare two earlier samples and explain which is stronger evidence or where a gap remains. This extends review of familiar work, with no new content.

Assessment routes offer access to the same core checks. A reduced task or supplied answer is recorded as content support; it does not establish independent performance.

Safe teaching and evidence

Boundaries and support

Use fictional job roles and paper shapes only. No real work placement, lifting, tools or personal career disclosure is needed. Respect a pass, pause or aid. Missing or unobserved work stays clearly marked. Do not infer a qualification result or completion from this lesson. Use coded records. Follow the usual safeguarding procedure if a concern arises.

Assessment record and review

An individual assessment record of job knowledge, task performance and help used; initial responses, later feedback response and next step kept separately. Earlier work is linked by code and actual date, with gaps retained. Use the criteria and half-term audit in Staff Answers. Do not average away gaps or infer accreditation.

Use VF · WS · I · NS+ (Yellow Box) · // self-edit · ? read back · R responded · E evidence. R requires Voice, Audience, a specific NS+ prompt and the learner response in their own colour. E is recorded only when actual work is banked. Keep the initial record unchanged; record feedback and the later response separately.

Learner voice and thread tags

Accept the learner’s chosen mode. Record exact words or selections and the support actually used.

S: reflect on a skill and next step. So: explain work and listen to feedback. IL: choose a response mode, pause or aid. MR: allow time and respect each contribution. No other thread is claimed.

Offer to the Communication portfolio

An actual clarification request and reply can be offered to the Communication portfolio. Staff confirm any mapping; no completion is asserted.

Reflection

Next teaching need: _____

Learner request and change made: _____

Weekly authority: owner-approved outline, approved 26 October 2026. Format: accepted Careers Weeks 5–6. Familiar task wording checked against accepted Weeks 1–6. No new workbook row is asserted.
