Model step 1

Show a brief first run, starting the return before the agreed cue.

Model step 2

Listener says: I notice the return began before the cue. Show a clearer hand cue.

Model step 3

Repeat and check what happened. Count the real successful run only.

Model step 4

Say: That is one success. My goal asks for two; I need one more real run or an honest next step.

Now make your own

Choose your role. Try a short scene. Change one thing.

The adult model is an example. Your arts log must show your real choice.
