Views and reflection

Express a simple personal view respectfully.
Make a reflection page; evidence for the unit award.

Resilience & Change

Different views

A view is what someone thinks.

People may have different views.

We can listen and speak with respect.

A respectful view

Is it helpful to ask before helping?

Could a small first step help with a new start?

Use: I think ____ because ____.

A reflection page

Show one accurate idea from our RE lessons.

Add your own view about a care question.

Add a kind action or a small next step.

Your own evidence

Show one idea you have learned.

Give your own view with respect.

You may speak or point. An adult can scribe.

Our check

Is the view clear and respectful?

Does the page show a learning idea and your view?

A private family story is not needed.

Your response

Supported: choose an idea and a frame.

Independent: give a view and a reason.

Aspire: respond kindly to a different view.

Our exit

Share a thought or point to your work.

Choose one next step.

A copy of the model is not your own evidence.
