My atlas map

Friday 26 February 2027 | P2 | 40 minutes | Year A

Humanities | GROW | Spring 2 Week 1 | HUM-GROW-S2-W01

Learning outcome: Use atlases and maps to locate climate zones and hazards.

You may point, write, type, speak in private or direct a scribe. You may pass. Reading aloud is your choice.

Route Independent

1. Use the index to find the five core places. Read the letter first, then the number.

2. Make your own map in your book. Add the three climate labels and two hazard marks. Make your key.

3. Check each place with the index. Use a grid box and the key to explain one choice.

In your book

In your book, use a blank map. Label the Amazon Basin, the Mediterranean and the Arctic with their climate zones. Plot a circle for earthquake hazard in Japan and a triangle for volcano hazard in Indonesia. Add a key. Use the index and grid to check each place.

I found ____ in box ____. The key shows ____. This place has ____.

You may plan in any language. An adult may read or scribe your exact choice. Record the help used.

My check

I used the index and grid. I placed three climate labels and two hazard marks. I added a key. I checked one place with my partner.

Use the agreed quiet signal for a pause. Stay with the adult in the usual place. Rejoin with one map check. A neutral shape task is ready.
