Maps data and community choices

Today we compare groups and show map and data evidence.

You may point, write, type, speak in private or direct a scribe. You may pass. Reading aloud is your choice.

Route Supported

1. Use the map index. Point to UK and Japan and explain one key mark. An adult may read or move a mark exactly as you direct.

2. Use the exact data table to choose 1980 and 2025. Keep each value with its year and C unit.

3. Use A and B. Point to a shared aim and a different action. Use the frame or direct a scribe to record your own report.

My own finish

In your book, make one small report. Keep your own map check: locate UK and Japan, then add a key. Present the UK values for 1980 and 2025 with years and C units. Give one careful data statement. Compare Groups A and B: one shared aim, one different action and a link to a stated value.

My map shows ____. The UK mean was ____ C in ____ and ____ C in ____. Both groups ____. Group A ____, while Group B ____. One reason is ____.

My check

I used the facts. I made my own choices. I gave a reason. I can show the help I used.

Use the agreed quiet signal for a pause. Stay with the adult in the usual place. Rejoin with one card check. A neutral shape task is ready.
