Selected year	Exact UK annual mean C
1980	8.26
1990	9.38
2000	9.10
2010	7.94
2020	9.62
2025	10.10

These are six selected complete UK years. Values are absolute means, not a change from a baseline. The map and UK data do not measure local trends or predict a future day.
