Listening and talking support

Pink supported print

My choices

I can hear one card again.

I can point, speak or use a scribe.

I can ask for an agreed quiet pause.

A talk frame

The value is ____. A next step could be ____. Help could come from ____.

A model and my turn

Worked example

Question: How might care guide a response when the club plan changes? Answer: For this made-up example I choose care. The learner could pause and ask an adult for a suitable new display format. This considers others' needs and gives a manageable next step. Asking for help can be part of resilience.

My turn

Question: Choose fairness or effort for the made-up learner and form your own reflection. Frame: The value is ____. When the plan changes, a next step could be ____. This fits the value because ____. Support could come from ____.

Plan in any language. Learn about a belief without having to share it.

My reflection page

My choice

For this task I choose care / fairness / effort. I can choose for a made-up learner instead.

A small change

The club cannot use the first display format. A manageable next step could be ____. This fits the value because ____.

Support and review

Help could come from ____. I understand ____. My next learning step is ____. I can pass on a private detail and use the invented example.
