Values and resilience review task

White standard print

Reflect on personal values and resilience. Belief-and-resilience assessment for the unit award.

In your book, speak, point or ask for a scribe. Choose a route with an adult.

Supported route

1 Hear one review item at a time. Choose from two reasons or words, then explain your choice by speech, pointing or a scribe. Use the reading cards again when needed. An adult records the support.

2 For the reflection, choose care or fairness for yourself today or for a made-up learner. Tell an adult: A next step could be ____. It fits this value because ____. Help could come from ____. Give one named worldview example and choose one next learning step.

An adult can read one step at a time. Ask for two choices or a reread.

Words to help

The value is ____. A next step could be ____. Help could come from ____.

You may pass, take an agreed quiet pause and return to one short task.

Independent route

1 Check the six review items with an adult. Use verified dated earlier work where it fits and answer the agreed missing prompts in your own words. Name the worldview, give a reason and check a fact where asked. Content help is recorded.

2 Reflect on care, fairness or effort, or use a made-up learner. Explain one manageable next step when the club plan changes and who could help. Add an accurate named worldview link and one next learning step.

Words to help

Some ____ may value ____. This could help someone adapt by ____. My next learning step is ____.

You may pass, take an agreed quiet pause and return to one short task.

Aspire route

1 Check the six review items and supply your own response to agreed gaps. Verified dated earlier work may count. Where useful, compare two named worldview reasons and explain a limit or missing fact. Do not generalise one account to everyone.

2 Justify a value-led next step after the invented change. Explain how support and adaptation can show resilience. Use one accurate alternative and say what could change your judgement. Finish with a specific next learning step.

Words to help

A reason for ____ is ____. A limit or condition is ____. Support may help by ____. My evidence shows ____ and I still need to ____ .

You may pass, take an agreed quiet pause and return to one short task.

Thursday 25 March 2027, P2

Half term task

1 Care for the world

Choose Christianity or Humanism. Give one reason someone from that worldview may care for the world. Link it to reporting a dripping tap to an adult.

2 Words and a practice

Use langar, seva and equality to describe the free community meal. You may match each word to a meaning, then explain one link.

3 People and resources

An invented club can reuse suitable clean sheets or throw them away and buy more. Choose an option. Give one effect on people, one on resources and one fact to check.

Half term task continued

4 A thoughtful response

Hear the printed invented Sikhism answer: At langar, people of any religion or background can share a free meal. Give one accurate detail and a respectful follow-up question.

5 Values and resilience

Choose care, fairness or effort for today, or choose one for a made-up learner. The club's first display plan cannot be used. Explain how that value could guide one manageable next step and who could help.

6 Belief and resilience review

Choose a named worldview example from the cards. Explain how a belief or value could help someone adapt when the club plan changes. Then choose one thing you understand and one next learning step.

Use dated earlier work where it fits. Complete the agreed missing prompts today. Respond in your book, speak, point with explanation or ask for a scribe. An adult records the help used and arranges a follow-up for any gaps.
