References evidence and rights at work

Exact scheme outcomes

Gather references & evidence.

Rights-at-work outcome.

Before learners arrive

Open the lesson slides, choose one route pack per learner, and keep Support Cards, Vocabulary Mat and Evidence Sheet available. All teaching examples are invented. A pair can work with an adult instead. No live workplace contact, sign-up, real payslip or real contract is required.

Minutes	Action
0–5	Agree a response mode and recall one useful idea.
5–13	Read the invented model; explain the key words; check understanding.
13–23	Work as reader and checker, swap roles, then answer the hinge privately.
23–35	Each learner gives their own response using a chosen route.
35–40	Review evidence, give one next step, keep the reply and save.

Main ideas

I can link an actual piece of my work to a claim and show a gap honestly.

I can identify a suitable referee role and explain why permission is needed.

I can use a workplace clue to choose and explain a safe next step.

Quick model

INVENTED TEACHING EXAMPLE, NOT LEARNER EVIDENCE. An unnamed learner has one task sheet that shows a missing item was noticed before a paper pack was handed over. A claim that fits is: 'I checked this pack against the order.' A claim that goes beyond the sheet is: 'I always work perfectly.' The sheet shows one check, not every future action. The model evidence record reads: 'Task sheet from a practice activity; one checked pack; adult prompted the first check; second pack not observed.' The honest next step is to try the same check again and record the support used. A model is never banked as a learner's completed work.

Cover keys and help

Check understanding

Does one sheet showing one prompted check prove that a learner always works without help? Key: No. It shows one check with a prompt. Keep the claim as small as the evidence and record the support.

Hinge key

Which entry is honest? A: Always perfect; copied model. B: One check after a prompt; second pack not observed. C: Missing work; tick every outcome.

Key: B. Each learner answers privately. If either chooses A or C, model one claim against one actual clue, name the support and gap, then use the parallel hinge. If B is chosen and explained, move to the individual task. A correct letter without an evidence explanation needs a short follow-up.

Parallel check

A person saw the task but has not agreed to be a referee. What can be recorded? A: Possible role and permission plan. B: A reference invented in their name. C: Their details shared with everyone.

Key: A. If A is chosen with the permission explanation, continue with support as needed. Otherwise use the two-choice referee card and adult readback. Keep the reference status as 'permission not yet sought'; do not manufacture agreement.

Pair and individual work

Pair work: agree finder and questioner roles using one actual item each; an adult can be the partner. Finder: 'This shows ...' Questioner: 'Which part? What is not shown?' Swap and record own claim, work reference, support and gap. Mark missing work honestly. Sort referee choices: an adult who knows the work and agrees to comment; an unknown person; a copied model. Only the first is a possible real referee route. No details are collected and no request is sent. Answer the hinge privately.

Individual work: record an actual item, precise claim, support and gap, or an honest missing item and follow-up. Identify a possible referee role and a permission plan. Final invented case: task is to check paper packs; worker is asked to use an unfamiliar machine without training. Payslip lines: gross £1000, tax £100, NI £50, printed net £900. Give a safe first action and clue, calculate net, prepare a calm query and identify a record to keep. Figures are invented practice amounts, not real deduction rates. Do not sign a real document. Keep each learner's own response and next step.

Access and follow up

Use voice, writing, pointing, a usual aid, typing or an exact scribe. Read back and correct. Plan in any language. Ask a trusted adult privately; pass, pause and return with support. No personal work or family story is needed.

Keep first try, one NS and learner reply. Use Staff Answers for detailed keys. VF verbal feedback; WS worked with support; I independent; NS next step; // self-edit; ? read back; E saved evidence; R responded. Mark R only after Voice, Audience, NS and learner response in the same colour, on the same page or usual mode. Offer to the Communication portfolio. Staff confirm any link to the unit award; no completion is implied.

Where this leads

Read workplace information, explain a safe decision and ask for help when information is unclear.
