Construction design evidence sheet

Design and Technology LAUNCH Spring 2 Week 1 Thursday 25 February 2027 P1 Year A

Outcome verbatim: CONSTRUCTION: design a product to solve a problem.

Record the pupil's own design work. Evidence is a specification, three annotated ideas and a chosen design with reasons. Record only what is actually shown.

Design evidence	Shown or pending and comment
Three checkable specification points	_____
Three distinct quick design ideas	_____
Two useful annotations per idea	_____
Chosen design and two purpose-linked reasons	_____
Card size and proposed stand dimensions	_____
Real change or question for Week 2	_____

Pupil words

I choose ___ because ___. It could help Sam by ___. A later check is ___. Scribed words confirmed yes / not yet ___.

Adult record

Actual date ___. Book or evidence location ___. Support for reading, drawing or recording ___. Adult design review approved / pending ___. Missing planning ___. Next action ___.

A model is not pupil evidence. Oral annotations or directed sketches need an honest support record. A decision about the unit award is separate; a tick here is not completion of the unit award.
