Teaching assistant brief

Design and Technology LAUNCH Spring 2 Week 1 Thursday 25 February 2027 P1 Year A

I can plan a useful card stand, show three ideas and explain my choice.

Before the design

Read the invented problem and show or describe the 80 by 60 mm card. Keep the brief beside the pupil. No personal disclosure or tool use is needed. Read one design check at a time.

I do and we do

Prompt part, job, reason. Model only one annotation, then fade. Compare the same checks across different ideas. Help the pupil separate a prediction from an actual test.

Independent stage

Support one route. Keep all three distinct ideas and two useful annotations per idea. The pupil chooses and gives reasons. Draw or scribe only what they direct; read the result back for confirmation.

Prompt ladder

Point to the place or instruction. Ask a short question. Rephrase. Give a scaffold or choice. Model the first step only, then return the task.

Safe pause and record

Put any demonstration tool down before a pause. Agree the return with the adult. Record actual support, missing work and the book location. Do not mark a tool skill or product test that did not happen.

Language and next step

Plan in any language. Accept speech, pointing or signing. Keep the real chosen design for Week 2 and note any adult feasibility check still needed.
