Access and fallback	Oral signed or scribed planning; physical mock-up remains pending if not made.

Teacher preparation

Retrieve actual Week 1 choices. Prepare thin card, approved scissors, ruler, pencil and paper tape, or safe prepared parts. Keep the two fold origins clear. Read the safety brief. No power tool or heated tool is used. Check the actual mock-up before testing.

Where this leads

Construction designers and model makers choose materials, list parts and plan a safe sequence before a build. A small mock-up can reveal a change before more material is used.
