Teaching assistant brief

Design and Technology LAUNCH Spring 2 Week 4 Thursday 18 March 2027 P1 Year A

I can check my actual stand, make a useful change and explain the result.

Before testing

Retrieve actual work and plan. Wait for adult clearance of edges, joins and level table. Keep tools down. Read one strength or finish check at a time. Do not ask a pupil to touch suspect edges.

I do and we do

Point to the one-card purpose. Prompt observation, finding and next step. Record actual card count and seconds. A stop is useful information; do not push for 30 seconds if a warning appears.

Independent stage

Support one approved improvement linked to a real finding. Keep pupil and adult actions distinct. After a change, the same one-card check comes first. Confirm actual results and pending work.

Prompt ladder

Point to the place or instruction. Ask a short question. Rephrase. Offer a scaffold or choice. Model the first step only, then return the task.

Safe pause and language

Tools down and work safe before a pause. Agree the return. Plan in any language. Accept speech, pointing, signing or confirmed scribing. The pupil can direct approved adult handling.

Keep the evidence

Store the actual item with dated before and after observations, change, why, support and gap. No extra load after a stop. Extra-card comparison is optional and needs a passed baseline and adult clearance.
