# Supported strength and finish pack

Design and Technology LAUNCH Spring 2 Week 4 Thursday 18 March 2027 P1 Year A

I can check my actual stand, make a useful change and explain the result.

1 Use one check at a time with the adult. Point to the real stand or name the model route.

2 Direct the cleared one-card test and say what happened; record the true roles.

3 Point to one finish finding. Choose an approved useful improvement and explain why.

4 Confirm the before and after record. Keep any unperformed action pending.

## My actual evaluation record

Actual item or model ___. Strength finding ___. Actual card count and seconds ___. Finish finding ___. My approved improvement ___. Why it helps ___. Same one-card recheck result ___. Actual support ___. Next gap ___. Date and evidence location ___.

## Safe evidence

One card is the intended load. Stop at the first concern. Keep any unperformed test, improvement or recheck pending. Optional comparison never proves maximum strength or safe use with a heavy object.

Plan in any language. Point, speak, sign or confirm exact scribed words. Pupil-directed adult handling is recorded with its true roles.
