Cost present and review activity prompts

Design and Technology LAUNCH Spring 2 Week 5 Thursday 25 March 2027 P1 Year A

1 Gather the real record

Find your actual design, plan, product or model, change log and strength and finish review. Mark anything missing.

2 Cost your material allocation

Use quantity, unit price, calculation and subtotal. Add the agreed issued material once. Label an estimate if quantities or prices are unknown.

3 Prepare and share your explanation

Use the five time slices on the two-minute card. Explain the purpose, choice, making, real test or gap, change and cost. Use an agreed private or accessible mode.

4 Review five weeks

Check all six exact outcome rows. Keep a date, evidence location, comment and support for each. A prepared talk alone is not a presentation.

5 Choose a next target

Say what a real record shows, one gap and your next target. Confirm scribed words.

Materials free route

With no product, tools, paper, printer or device, hear the model prices. Use spoken sums and label your cost as an estimate. You may give a real private talk if an adult sees or hears it. Keep the actual mode, time and help. Use real work in your review, or name each gap. An adult can write your words and read them back. If no record can yet be made, the written record stays pending. Missing making, tests and actual product cost stay pending.
