OPENING RESILIENCE & CHANGE

Cost a card stand and review progress

I can explain a materials cost, present my work in my own words, and review my progress with real evidence.

Weekly outcomes

Cost my product and present it (links Enterprise).

Review D&T progress and add unit award evidence.

Keep your own costs, words, support and remaining evidence clear.

ARRIVAL 5 MINUTES

Gather the real record

Find your design, plan, build, change log and test record.

Use actual work or mark a gap.

Today: cost, present and review.

STARTER 3 MINUTES

What are we pricing

Invented classroom values.

One whole sheet 30 p includes parts, test card and offcuts.

Tape 5 p for one 10 cm length.

Charge agreed issued material once.

I DO 5 MINUTES

Show the materials cost

Quantity × unit price = subtotal.

Add the subtotals once.

Model materials cost 45 p = £0.45.

Labour, tools and overheads are unpriced.

WITHIN I DO INVENTED MATERIAL VALUES

Two model cost rows

Resource	Quantity	Invented price	Subtotal (p)
Whole thin-card sheet	1 sheet	30p per sheet	30
Paper tape	3 × 10 cm	5p per length	15
Materials total			45

45 p = £0.45. Model issued allowance; actual allocation may differ.

WE DO 7 MINUTES

Cost a change and plan the talk

One extra 10 cm tape length adds 5 p.

45 p becomes 50 p only if the extra is allocated.

Talk timings: purpose 20 s, making 30 s, test 30 s, cost 20 s, next step 20 s.

Use your own words and real findings.

WE DO 2 5 MINUTES

Check for double counting

The whole sheet already cost 30 p.

Should you add the test card price again?

A Add again B Do not add again C Guess

INDEPENDENT 8 MINUTES

My cost talk and progress review

Cost sheet or labelled estimate.

Actual presentation in an agreed mode.

Six outcome rows across five weeks.

Keep support, gaps and one next target clear.

WITHIN INDEPENDENT ONE ROUTE

Supported Standard or Stretch

Supported: two model rows and short presentation prompts.

Standard: own allocation, calculations, talk and six-row review.

Stretch: planned versus actual, and asking price above materials cost.

No forced public audience.

REVIEW 4 MINUTES

Check the evidence and the claim

Explain one cost calculation.

What did you actually present? Mode, duration and help.

Which real record supports your progress?

Choose one future target.

WITHIN REVIEW CLOSING EVIDENCE GRID

Five weeks six outcomes

Week	Weekly outcome verbatim	Status	Evidence and comment
1	CONSTRUCTION: design a product to solve a problem.		
2	CONSTRUCTION: select materials and plan the build.		
3	CONSTRUCTION: make, adjust and improve.		
4	CONSTRUCTION: evaluate strength and finish.		
5	Cost my product and present it (links Enterprise).		
5	Review D&T progress and add unit award evidence.		

Shown / More to do / Not yet seen. Add the actual date, location, comment and support on the Evidence Sheet.

EXIT 3 MINUTES

My progress and next step

My materials cost or estimate is ___ because ___.

One real record shows I can ___.

My next target is ___.
