Support for analysis and report writing

Tuesday 23 March 2027 | P2 | 40 minutes | Year A

Humanities | LAUNCH | Spring 2 Week 5 | HUM-LAUNCH-S2-W05

White paper version. Read quietly, point, write, type, speak privately or direct a scribe who reads your words back. You may pass. No public answer or reading aloud is required.

Step 1 separate the dates

A–C are recent October 2026 records. H is Japan, 11 March 2011. Use only A–C in recent-record calculations.

Step 2 make your own finding

Use the field and unit. Find newest and shallowest. For a gap, subtract the smaller relevant value from the larger value. Record the actual values and method. The worked MAX is not your own analysis.

Step 3 choose case evidence

Use C3 and C4. Choose a cause fact, a shaking effect, a tsunami effect and management facts. Plan your because links before writing.

Step 4 judge a measure

Frame: ____ helped by ____, but ____. I judge ____ because ____. Use a source fact and a real limit, not a claim that all risk ends.

Partner roles

Analyst gives one finding. Evidence Checker checks field, value, method and limit. Swap. Keep your own final work.

Support and a private pause

Tuesday 23 March 2027 | P2 | 40 minutes | Year A

Humanities | LAUNCH | Spring 2 Week 5 | HUM-LAUNCH-S2-W05

White paper version. Read quietly, point, write, type, speak privately or direct a scribe who reads your words back. You may pass. No public answer or reading aloud is required.

A small model to fade

Teacher-written model: MAX uses only recent A–C, so it shows the largest magnitude in that set. It does not show ____. Finish the limit, then cover the model. There is no completed case report to copy.

Choose an honest mode

Use a book, type in the DOCX template, work in the offline XLSX, speak privately or direct an exact scribe. Record what actually happened. Paper or a scribe does not prove spreadsheet use or digital authoring.

PAUSE

Point to PAUSE or tell the adult privately. Use the agreed supervised place. You do not need to explain to the group. When ready, choose a short recap or neutral date order.

Neutral date order

Order three ordinary dates with no hazard detail. Stop when you wish. This is optional practice, not proof of the combined outcomes.

My next step

Choose one field check, one because link or one limit. Plan in any language. Use your usual aid. Keep actual help and any unfinished work visible.
