Teacher and cover planner

Body image and media messages

Thursday 4 March 2027 · P4 · 40 minutes · Year A

LAUNCH · pair aged 14–16 · Spring 2 Week 2 · formative

Theme Resilience & Change. Spring 2 runs 22 February to 25 March 2027. Week 4 remains held by the owner and is neither taught nor assessed in these resources.

Thread tags: SMSC S/So; British Values IL/MR. Use the fictional cases to discuss respect and safe choices.

Exact outcome

Body image, self-esteem & the media.

Source: owner brief, LAUNCH Weekly Spring row 155. Exact wording retained. Source workbook not reopened. Accepted Spring 1 Weeks 1–3 supply structure only.

Purpose and success

• Explain why a post cannot show a person's full life or worth.

• Spot a sales promise or a selected view in an invented message.

• Choose a kind response and a safe route to adult help.

Preparation

Read Staff Answers. Print one chosen route pack per learner, shared Support Cards and Vocabulary Mat, and a staff Evidence Sheet. Prepare books and usual aids. Read all cases in advance; agree the private pause route and staff supervision. Use the printed cases if the display is unavailable.

Use only the authored fictional cases. Do not substitute real posts or pupil experiences.

Where this leads

This helps learners question messages, treat people with respect and seek support in relationships, learning and future work.

Forty minute teaching sequence

Phase	Minutes	Action
Arrival	0–4	Preview fictional content, access modes and agreed supervised pause.
Starter	4–6	Read the first misconception as a fictional claim. Give a private reason.
I do	6–11	Teach the key words and model. Check one reason privately.
We do and hinge	11–16	Pair reader and checker may swap. Use private hinge and parallel check; reset 15–16.
Practice	16–28	16–22 cases using chosen tier; 22–27 explain safe help or sequence; reset 27–28.
Learning evidence	28–34	Each learner records own fictional reasoning; reset 33–34.
Review	34–38	One next step and own response in usual mode.
Exit	38–40	Private fictional check and help reminder.

Three one-minute quiet resets are included in the forty minutes: 15–16, 27–28 and 33–34. They are not extra time.

Worked model and fade

A plain text advert says: 'Buy this craft kit. Look perfect. Feel sure every day.' A note says: 'This advert sells a craft kit. It gives no evidence for its promise.' An invented learner sees the advert and begins to feel less sure about joining a club.

The message links buying a kit and looking a certain way with feeling sure. It gives no proof. A kit cannot promise how someone will feel each day. The learner's worth does not depend on looks or buying it. A fair rewrite is: 'This kit has craft materials. People can enjoy making things in different ways.' The learner could pause the advert and talk to a trusted adult.

Read and explain the model. Ask which detail supports the reason. Then remove the worked answer for a new case; keep the glossary, frames and usual aids. Learners choose a reason rather than repeat an answer supplied by an adult.

Pair use

Reader A identifies one clue. Checker B explains its meaning or a safe next step. Swap for the next case. Each learner then records their own reasoning. Independent work or staff-supported talk is equally valid. Do not act out the characters.

Checks and planned access

Main hinge

An invented advert says buying an item will make everyone like a learner. What is the safest conclusion?

A. The learner must buy it to be worth liking.

B. The advert makes a promise without proof. The learner's worth does not depend on buying it.

C. Every advert and every post must be false.

Key B: The card gives no evidence for the promise about being liked. It does not define anyone's worth. It also does not prove that every advert is false.

Check each learner privately. Proceed when each gives the safe answer with a reason. For an unsafe, unclear or absent response, re-model, use the parallel check and offer guided support. A pass is not a wrong answer; arrange a later private check.

Parallel check

A post shows one selected moment. Does it prove that the person's whole life is easy?

A. No. One chosen moment cannot show a whole life or all feelings.

B. Yes. A clear post shows every part of the person's life.

Key A: A selected moment leaves other events and feelings unseen. The learner can pause rather than compare bodies or lives.

Cognition and Learning

Short instructions, explicit words, worked example, chunked cases and choice of route. Keep models visible and allow processing time.

Communication and Interaction

Optional pair talk, familiar aid, pointing, exact scribe and readback. No required speech or eye contact.

SEMH

Predictable sequence, third-person cases, pass or observe, discreet supervised step-out and supported return. No personal questioning.

Sensory and Physical

Accessible print and seating, quiet resets, usual communication and writing aids. No required movement or touch.

EAL

Plan in any language. Read key words aloud and explain them in the story. Accept the learner's own meaning through language support.

Safe delivery and evidence

Subject guidance

Use only the supplied plain text adverts and posts. No photographs of bodies, before and after bodies, filters on pupil images, body measurements, weight, calories, diets, appearance scores or own appearance tasks. Do not invite pupils to name content they have seen or describe their bodies, family habits or personal online lives. Do not debate whether an appearance is good or bad. Explain that body image means thoughts and feelings about a body, not a rating of it. Feelings can vary; avoid promising constant confidence. Pair talk is optional: learner A identifies the claim; learner B asks what the source supports; swap for the next case. Both can work privately with an adult instead. Keep all concerns out of the learning record. A disclosure goes to the safeguarding lead through the school procedure. Listen calmly, do not probe or promise secrecy. Offer the agreed supervised pause and neutral alternative. Help routes are a trusted adult and the safeguarding lead; try another trusted adult if the first is unavailable or unhelpful. No live feed, account, search or real post is needed. Any mapping to the unit award must be checked by staff; classroom evidence does not establish current personal risk.

TA focus and prompts

I do: clarify one word and check the fictional reason. We do: offer wait time, a frame or choice. Independent: note each learner's own choices and actual prompts; maintain the agreed supervised pause route.

Prompt ladder: 1 Point to the place or instruction. 2 Ask a short question. 3 Rephrase the instruction. 4 Provide a scaffold or choice. 5 Model the first step only, then return the task. Record content prompts separately from access support.

Private F M H questions: F: Which line tells what the item does? M: What did the selected post leave out, according to the source note? H: Why does this case not prove that every real post or advert is false?

Safeguarding

Listen calmly to any disclosure. Do not probe, investigate or promise secrecy. Follow the school safeguarding procedure and pass concerns promptly to the safeguarding lead. Use the separate safeguarding record; keep real concerns out of learning evidence. Privately support a learner who cannot identify a trusted adult.

Use the agreed pause signal. No public reason is needed. An adult supports the agreed supervised route, a neutral task and a supported return. A learner may pass, observe or catch up privately. Keep supervision in place.

Evidence and marking

Record fictional explanations, chosen tier, usual aids and actual content prompts. Keep first work, one next step and the learner's own response. Offer to the Communication portfolio; staff confirm mapping. Evidence may support the unit award; no award completion or full curriculum coverage is claimed.

VF verbal feedback · WS worked with support · I independent · NS next step in green · // self-edit · ? read this back to me · E actual evidence banked · R responded. R only after Voice and Audience are present, one NS is set and the learner responds in the same colour, on the same page or usual mode.
