Safe materials and planning card

White standard edition

Enterprise: from garden to table.

Prepare safely

Use adult-checked clean empty pots, labels, cards and pencils. Keep bags and walking routes clear. Choose a seated or observer role if useful.

Handle calmly

Move one item at a time and put it down before changing jobs or pausing. Tell the adult about a damaged item, sharp edge or spill.

Keep this as planning

No food is handled, tasted, prepared or sold today. The close-grown pea trays remain observation plants, not food stock. Any future food or growing activity needs separate adult checks.

Finish

Return materials and clear the space. Wash hands after handling used garden materials. Use paper-only or spoken planning if safe materials are unavailable. No purchase, customer contact or money collection is needed.
