Enterprise choices and planning jobs

White standard edition

Plan a product/service to sell.

Sort and try an idea

1 Sort the product and service examples by what the customer receives.
2 Choose one offer or continue an earlier idea.
3 Name a particular customer type and useful need.
4 Sketch or arrange a clean-prop mockup to explain it.

Invented offer	Customer need and checks
Product: labelled starter-plant pot with care card	A beginner grower may need clear instructions. Adult checks suitable stock, materials and accurate advice.
Service: help label and check plants	A person may need help keeping labels clear. Adult defines the safe task, time and supervision.

These examples are invented. Our choice may change with a reason. Existing pea observation plants are not automatically sale stock.

What would our choice need

Use your book or tell an adult what to scribe.

Resource needed	Why needed	Status
____	____	Confirmed / to check
____	____	Confirmed / to check
____	____	Confirmed / to check

Our one offer ____
Customer type ____
Useful need ____
A check still needed ____

My one line

We chose ____ for ____ because ____.

No sale, purchase or customer contact today. Record the plan or mockup honestly. Return props, clear the table and wash hands after gardening props.
