Costing and marketing jobs

Pink supported edition

Cost, price & marketing (links Maths).

Choose the figures

Use checked group figures.
Or mark invented model practice.
Keep unknown costs to check.

Work one line

Quantity × cost each = line cost.
Example: 10 × £0.20 = £2.00.

Use the blank Costing Record.
An adult may read or scribe.

Pink supported edition

Find cost and price

Add line costs for the batch total.
Count usable finished units.
Batch total ÷ units = unit cost.

Choose a price

Price is what one customer would pay.
Say why it could cover the costs counted.
Other costs may still need checking.

No buying, selling or real money today.

My one line

Our cost per unit is ____; our proposed price is ____ because ____.

Read back

Check one total with an adult.
Mark a missing cost to check.
Return cards and clear the table.

Tell the adult before a quiet pause.
You may point, speak or ask for scribing.
