

Knowledge Organiser (BUILD W2): People who help us

Humanities Aut 1 · 2026–27 · Workbook outcome: Identify people who help us in the community.

Key Word	Definition
keeps us safe	The diagram above has three boxes. The first box is keeps us safe. The middle box is keeps us well. The last box is keeps things going.
keeps us well	The diagram above has three boxes. The first box is keeps us safe. The middle box is keeps us well. The last box is keeps things going.
keeps things going	The diagram above has three boxes. The first box is keeps us safe. The middle box is keeps us well. The last box is keeps things going.
Watch me do it:	Watch me do it: I take the crossing patrol card. What is their job? They stop the cars. Why? So we can cross. That keeps us safe. So I put the card in the first box. I say the job first. Then I pick the box.
Now watch one more:	Now watch one more: the dentist. Their job is to check our teeth. That keeps us well. Middle box. Same steps. Job first. Then the box.
helper	The chain above has three boxes: helper, then place, then job. The arrows show the order. The last box is the job, and it is the one most often missed.
place	The chain above has three boxes: helper, then place, then job. The arrows show the order. The last box is the job, and it is the one most often missed.
job	The chain above has three boxes: helper, then place, then job. The arrows show the order. The last box is the job, and it is the one most often missed.

Key Facts

- Last week we said who is special to us. This week we look at people who help everyone.
- A helper does a job for other people. They do not have to know you.
- Some helpers keep us safe. Some keep us well. Some keep things running.
- You can point to a helper on a card. You do not have to say who has helped you.
- A helper can be a person in a shop. A helper can be a bus driver. Both do a job for others.
- Two people can pick the same helper. Their reasons can be different. Both are right.

Arrival Task

What we already know about helpers

- 1) Last week we said who is special to us. This week we look at people who help everyone.

- 2) A helper does a job for other people. They do not have to know you.

- 3) Some helpers keep us safe. Some keep us well. Some keep things running.

- 4) You can point to a helper on a card. You do not have to say who has helped you.

- 5) A helper can be a person in a shop. A helper can be a bus driver. Both do a job for others.

- 6) Two people can pick the same helper. Their reasons can be different. Both are right.

Why is one helper not enough?

Here are two answers about the same street. Answer A: “The bus driver helps.” Answer B: “The bus driver helps. The nurse helps. The bin crew helps. They all do different jobs.”

Try it in your head: think of a shop. Who works there? Now think of a bus. Who works there? Two helpers. Two places. Two jobs. That is a sort already.

We Do 1: Sort the cards. Match the helper to the place.

Card 1: the nurse. Where do you find them? What do they do?

Card 2: the bin crew. Where do you find them? What do they do?

Card 3: the librarian. Where do you find them? What do they do?

We Do 2: Match the missing link together

We build one chain on the board first. Nobody writes yet. Everyone puts the middle box on a whiteboard. Then we show them all at once. Then we agree the job. The helper for this chain is the bus driver. The first box is filled in. Your job is to match the place. Where do you find a bus driver? Write one place, not a describing word.

Scaffolding – Standard

Word Bank

keeps us safe, keeps us well, keeps things going, Watch me do it:, Now watch one more:, helper, place, job, Space, Voice, Audience, Influence

Your route

Three helpers. For each one, write the three links: who they are, where they work, and what they do for us. Use a separate row for each helper so the links stay in order.

Sentence frames

"Who ... what they do ... so that ..." | "... because ..."

Reference Zone — keep this beside your work

The model

Watch me do it: I take the crossing patrol card. What is their job? They stop the cars. Why? So we can cross. That keeps us safe. So I put the card in the first box. I say the job first. Then I pick the box.

Now watch one more: the dentist. Their job is to check our teeth. That keeps us well. Middle box. Same steps. Job first. Then the box.

Fixing it together: add the last link. The clinic, where they check we are well. The words where they often start the third box.

Check yourself

- Check yourself: does every helper you named have a place next to them?
- Check yourself: is the job about something the helper does for other people?
- Check yourself: would someone new to this town get your chain?
- Check yourself: did you sort each helper into one of the three groups?

From the lesson sheet

People who help us

SoW: 'BUILD Weekly - Autumn'!C47 — "Identify people who help us in the community."

Learning objective: I can name people who help us, sort them into groups, and match each one to a place and a job.

No personal disclosure is required. Every task can be completed with the supplied picture cards.

The helper chain

Helper → place → job. The last link is the job.

The first row is done for you, from the chain we built together. It is in italics so you know it is not yours. Fill in as many of the rows below it as you can.

Independent Work – Standard

Three helpers, each with all three links written.

Three helpers. For each one, write the three links: who they are, where they work, and what they do for us. Use a separate row for each helper so the links stay in order.

Helper	Where they work	What they do for us
<i>the nurse</i>	<i>the clinic</i>	<i>checks we are well</i>

Choose a route

- 1. I chose my own route.
- 2. My chains are in my own words.
- 3. Any adult help is written on the record.

5 · Learner confirmation

I confirm this is my own work.

Learner name (print)	Signature
Date	

Exit Ticket – Standard

1) Read one chain to a partner or to an adult. The listener says back the job they heard, in their own words.

2) Did the listener hear a different job? Then change one word in your chain. Make it say what you meant. That change is your influence. It belongs to you, not to them.

3) Did the listener hear just what you meant? Write that down too. A chain that already works is worth noting. It needed no change.

Lundy Loop — this lesson

SPACE stays available. VOICE is received. AUDIENCE names back exactly. INFLUENCE changes one real next action.

Space	means you get room to join in.
Voice	means you get to say it.
Audience	means someone really listens.
Influence	means something changes because of what you said.
