Pupil studio resources & worksheet — The local canvas: shapes and textures

Pathway: BASE · Week 1 Part 2 · Big question: What bold shapes and rough marks can we spot in big frames?

Arrival check

Look at the big bridge card. Which shape do you spot first?

[ ] Sharp triangles

[ ] Tall straight bars

[ ] Wide curved arch

Starter visual cues

Outside frame has thick straight bars.

Inside frame has neat triangle shapes.

Surface has rough metal bumps and ridges.

Sky behind the bars is pale open space.

Vote: How do we copy a bumpy card mark set onto thin paper?

Studio practice planner

Pick your frame shape, bumpy plate, and look for today.

Shapes/Focus: Triangle truss, Wide arch span, Tall tower bars, Crossed beams

Tools/Methods: Ridge card plate, Mesh net plate, Grit sand card, Bolt dot plate

Exit ticket

How do you get a crisp mark set from a bumpy plate?

[ ] Hold the page still and rub with the flat side of a crayon

[ ] Slide the page round. At the same time poking it with a pen

[ ] Put water on the wax first
