Tier pack: Aspire route — The local canvas: shapes and textures

Pathway: BASE · Week 1 Part 2 · Big question: What bold shapes and rough marks can we spot in big frames?

Aspire route studio steps

Step 1: Make four neat rubbings using two wax shades.

Step 2: Cut the rubbings into straight bar strips. Glue them down.

Step 3: Outline each bar. Add corner bolt dots with a dark pen.

Step 4: Add white chalk lines along the top edge of each bar.

Success check

Cut rubbing strips built into a strong frame with chalk light.

Make-it studio planner

Pick your frame shape, bumpy plate, and look for today.

Options: Triangle truss, Wide arch span, Tall tower bars, Crossed beams

Review checklist

[ ] Touch your page. Point to the best rough mark set.

[ ] Check that your black bar lines meet at the corners.

[ ] Show a partner one triangle or arch on your sheet.
