Tier pack: Independent route — Try it once, then say what happened

Pathway: BASE · Week 4 Part 1 · Big question: What happens when we test sponge tapping and wax resist on our sign?

Independent route studio steps

Step 1: Test two-colour sponge tapping (dark then light) on your sign in Box A.

Step 2: Draw your sign firmly with white. Pale wax in Box B. Then wash dark ink over it.

Step 3: Fill in the two log prompts: 'What I tried...'. 'What happened...'

Step 4: Circle the area where the art skill worked best.

Success check

Two clean art skill trials. Two done log short lines.

Key words helper

• sponge: A soft tool with tiny holes that dabs dotty paint.

• resist: When wax pushes wet ink away so the wax lines stay bright.

• dab: To press a sponge straight up and down gently.

• test: To try a new art trick once to see how it works.

• note: A short short line saying what happened in your test.

Review checklist

[ ] Look at Box A. Box B side by side.

[ ] Point to the sharpest edge on your sheet.

[ ] Read your 'What happened' short line to a partner.
