Tier pack: Supported route — Try it once, then say what happened

Pathway: BASE · Week 4 Part 1 · Big question: What happens when we test sponge tapping and wax resist on our sign?

Supported route studio steps

Step 1: Hold a card cut shape on Box A. Dab around it with a sponge.

Step 2: In box B, draw your shape firmly with a bright yellow wax crayon.

Step 3: Brush thin blue wash right across Box B to see the yellow shine.

Step 4: Tick the short line starter on your sheet to say which box looks clearest.

Success check

Both boxes tested with one ticked review short line.

Key words helper

• sponge: A soft tool with tiny holes that dabs dotty paint.

• resist: When wax pushes wet ink away so the wax lines stay bright.

• dab: To press a sponge straight up and down gently.

Review checklist

[ ] Look at Box A. Box B side by side.

[ ] Point to the sharpest edge on your sheet.

[ ] Read your 'What happened' short line to a partner.
