Tier pack: Supported route — Planning the piece: four composition choices

Pathway: TRACK · Week 3 Part 1 · Big question: How do four deliberate choices — focal point, palette, background pattern, and medium — shape an identity piece?

Supported route studio steps

Step 1: Sketch two quick layout ideas in the small top boxes (centred vs angled).

Step 2: Tick your stronger thumbnail and colour three swatch boxes (one dark, one bright, one light).

Step 3: Draw your main motif and background pattern in the large planning frame.

Step 4: Complete the four label stems around the border.

Success check

Two thumbnails, three colour swatches, and a labelled composition plan.

Key words helper

• composition: How shapes, lines, and colours are arranged inside the frame.

• focal point: The main area of high contrast that pulls the viewer's eye first.

• thumbnail: A small rapid sketch used to test layout ideas before working big.

Review checklist

[ ] Hold your composition plan at arm's length and check that the focal point reads clearly over the pattern.

[ ] Verify that all four choice boxes (focal point, pattern, palette, medium) are annotated.

[ ] Keep your blueprint safe at the front of your log for Week 4.
