Tier pack: Aspire route — Deliver the skill share and curate the display

Pathway: TRACK · Week 7 Part 2 · Big question: How do we deliver a clear tabletop studio demonstration and curate our architectural panels as a cohesive exhibition?

Aspire route studio steps

Step 1: Deliver an interactive 90-second skill share where visitors try a 30-second mark on your mini-kit blank.

Step 2: Act as zone curator to coordinate panel spacing, tonal grouping, and lighting angle across a four-panel section.

Step 3: Write a comprehensive end-of-unit evaluation analysing how your architectural relief and leadership skills developed.

Success check

Interactive demo delivered, four-panel zone curated, and critical evaluation written.

Make-it studio planner

Prepare your museum label and skill-share headline for the showcase.

Options: Exhibit: Laminated truss relief, Exhibit: Embossed arch patina, Exhibit: Collagraph tower study, Exhibit: Weathered girder span

Review checklist

[ ] Stand back with the class to view the complete architectural relief exhibition along the wall.

[ ] Collect the peer feedback slips left at your demo station and attach them to your studio log.

[ ] Ensure your museum label and evaluation sheet are complete.
